March 16, 2015

To:

County of Mendocino
Planning and Building Services
860 North Bush Street
Ukiah, CA 95482

Regarding:

Case#: AP_2015-0005
Project Coordinator: Graham Hannaford

Anderson Valley Fire Department has reviewed the use permit application for the "Redwood Ramble". Anderson Valley FD has the below concerns to be addressed before proceeding with a conditional approval:

1. The company providing medical services to the Festival must contact the Anderson Valley Fire Department (707-895-2020) a minimum of three weeks prior to the event to discuss coordination of response to emergency events during the Festival.
2. Three legible copies of the event site plan with names and access information specific to the Redwood Ramble will be provided for emergency responders three weeks prior to event.
3. Camp Navarro must have their annual SFM inspection completed for fire and life safety, both in the camp's buildings and on the premises prior to 07/14/15.
4. Any use of pyrotechnic devices, fire dancing or other performances using open flame devices must be approved by our agency a minimum of two weeks prior to the event.
5. Parking must be in such a manner that provides "fire roads" and "fire lanes" which may not allow for the 550 cars as presented in the application. Extra prevention measures may be required to prevent vegetation fires starting from parking vehicles. If an additional site is used, the same stipulations apply.
6. The air ambulance landing zone named in the medical section of this application is the closest and most effective for the event and must be secured so that it can be used at any time during the permit dates.

Sincerely,

Andres C Avila
Fire Chief
