# Housing Element

## 2014-2019 Ukiah General Plan Housing Element Update

---

### Background

Every California city and county is required to include a housing strategy in its general plan that establishes housing goals, policies, and programs that respond to the community's housing conditions and needs. The City of Ukiah adopted its last updated Housing Element in 2011. The California Department of Housing and Community Development found the Element to be in substantial conformance with State law later that same year. This Housing Element updates that document, discusses who we are as a community, what the City has accomplished in the past in regard to housing, what the key issues are for the next five years, and how the City intends to respond to those issues and address the housing needs of the community.

The primary housing challenge for the City of Ukiah over the next five years is how to meet local housing needs with a slumping economy, municipal structural deficit and the loss of the City Redevelopment Agency that has provided millions of dollars in funding over the past 20 years.

The City updated its General Plan Housing Element in 2011 (2009-2014) and it was certified by the State Department of Housing and Community Development. The City, with limited staff resources and funding has had success implementing the programs contained in the Element. The 2014-2019 updated Housing Element builds on this success and focuses on what can realistically be achieved in the coming years given anticipated limited Staff and financial resources.

### What is Required?

The Housing Element responds to Ukiah's housing needs by identifying policies and implementing actions for meeting those needs. State law defines the general topics that Ukiah's Housing Element must cover. Specifically, the element must: (1) document housing related conditions and trends; (2) provide an assessment of housing needs; (3) identify resources, opportunities and constraints to meeting those needs; and (4) establish policies, programs and quantified objectives to address housing needs.

### Overview of State Law Requirements

State law establishes requirements for all portions of the General Plan. However, for the

Housing Element, the State requirements tend to be more specific and extensive than for other elements. The purpose of a Housing Element is described in Government Code §65583.

*"The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, and mobilehomes, and shall make adequate provision for the existing and projected needs of all economic segments of the community."*

While jurisdictions must review and revise all elements of their General Plan on a regular basis to ensure that they remain up to date, State law requires that Housing Elements be reviewed and updated at least every five years. The process of updating Housing Elements is to be initiated by the State through the regional housing needs process, as described later in this document. The regional housing needs process was recently conducted in 2008.

State law is also quite specific in terms of what the Housing Element must contain:

1. "An assessment of housing needs and an inventory of resources and constraints relevant to meeting these needs . . ."
2. "A statement of the community's goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing . . ."
3. "A program which sets forth a five-year schedule of actions the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, provision of regulatory incentives, and the utilization of appropriate federal and state financing and subsidy programs when available . . ."
4. The Housing Element must: (1) identify adequate sites with appropriate zoning densities and infrastructure to meet the community's need for housing (including its need for very low, low and moderate income households); and (2) address, and where appropriate and legally possible, remove governmental constraints to housing development.
5. An assessment of homeless needs and the opportunity for the creation of emergency shelters and transitional/supportive housing. The opportunity must encourage these facilities while providing flexibility for existing local strategies and cooperative efforts.
6. An evaluation of Military Compatibility and whether or not the City of Ukiah meets one of the three criteria that require measures to ensure compatibility.

This updated General Plan Housing Element contains these required ingredients, but begins with who we are as a community, what we've accomplished in terms of housing, and what our guiding principles are.

## Who Are We?

Ukiah is a diverse community with a variety of cultural influences. There is a significant senior population and a growing Hispanic population. There is also a significant homeless population with an increase in homeless persons unwilling to utilize the local shelter facility and other services. Even so, the local Plowshares Peace and Justice Center dining hall served 60,678 meals to those in need in 2012.

There is also a dedicated number of people working in the public and social service fields who are committed to creating opportunity for and developing affordable shelter. While local, State and Federal funding has decreased for affordable housing projects, the City of Ukiah has explored new ways to provide assistance. The City has also modified its zoning code to provide more opportunity for affordable housing, and purposefully maintained low fees for planning permits for affordable housing projects.

Interestingly, according to the State Department of Finance Demographic Unit, the City's population declined between 2004 and 2008. Overall, the population has decreased 187 people since the 2004 Housing Element was adopted and certified.

**Table 1 – Population 2004-2013**

Year	Population	Population Growth
2009	15,711	
2010	16,075	364
2011	15,926	Minus 149
2012	16,030	104
2013	16,065	35
		An odd fluctuation over the past several years - 139 more people in 2013 than in 2011 when the last Housing Element was prepared and certified, but still less than in 2010

**Table 2 – Community Characteristics**

<b>City Area Size</b>	4.2 square miles
<b>Vacant/Underutilized Land</b>	105 acres
<b>Vacant Residential Units (%)</b>	2.6%
<b>Occupied Housing Units</b>	94.9%
<b>Persons Per Household</b>	2.49 (2010)
<b>Median Age</b>	35.9
<b>Sex Percentages</b>	Females = 51.9% (8,336) Males = 48.1% (7,739)
<b>Median Income</b>	\$43,432 (2011) \$37,772 (2009) \$39,357 (2008)

<b>Senior Citizens (over age 65)</b>	2331 (14.5%) (2010)
<b>Children Under 5 Years Old</b>	1173 (7.3%) (2010)
<b>Median Age</b>	35.9 Years
<b>Individuals Below Poverty Level</b>	17.8% (2012) (18.3% in 2011)
<b>Total Housing Units</b>	6,488 (2010)
<b>Owner-Occupied Housing Units</b>	2,673 (43.4%)
<b>Renter-Occupied Housing Units</b>	3,485 (56.6%)
<b>Median Single Family Home Rental</b>	\$921 (2013) \$976 (2011)
<b>Median Home Sales Price</b>	\$306,800,000 (Dec, 2014)
<b>Extremely Low Income Households</b>	941 - Approximately 17% (year 2011) (20% in 2000)
<b>Mobile Homes</b>	439
<b>Mobile Home Tenants</b>	Significant number of single women over the age of 65 with an average annual income of less than \$12,000.
<b>Homeless Shelter Daily Average</b>	Approximately 64 people
<b>Homeless Demographic (2011)</b>	Majority: Male; 41-50 years old; Caucasian; No family/partner; No children; 1-2 years homeless Fastest growing population: Male 51-60 years old. 61.4% of survey respondents had children under 18 years old living homeless with them.
<b>Free Meals Served at Plowshares</b>	36,071 (1,818 children) in 2012
<b>People who Speak a Language Other Than English at Home</b>	2,699 (19.2%)
<b>Average Household Size</b>	2.48 people (2.47 in 2009)
<b>Those in the Labor Force</b>	6,522 in 2011 (7,124 in 2009)
<b>Largest Employers</b>	Ukiah Valley Medical Center, MC Social Services
<b>Female Heads of Household</b>	15.8% (as a percentage of total population) (14.3% in 2004)
<b>Unemployment Rate</b>	Since 2005 the unemployment rate in Ukiah has ranged from 4.1% in October 2006 to 12.6% in March 2010, to 9.3% in 2012. The current unemployment rate for Ukiah is 7.4% in June 2013. Mendocino County: 7.9% (July, 2013) California: 9.3% (July, 2013)
<b>Ethnic Percentages</b>	White = 62.9% Hispanic = 27.7% Indian = 2.7% Asian = 2.5% Black = 1.0%

**\*NOTE:** A person with disabilities is someone who has a physical or mental impairment that limits a major life activity; has a record of such impairment; or is regarded as having such an impairment. People

in recovery for substance abuse are also protected by fair housing laws; however, current users of illegal controlled substances are not protected by fair housing laws unless they have a separate disability (Federal Fair Housing Amendments Act, 1988).

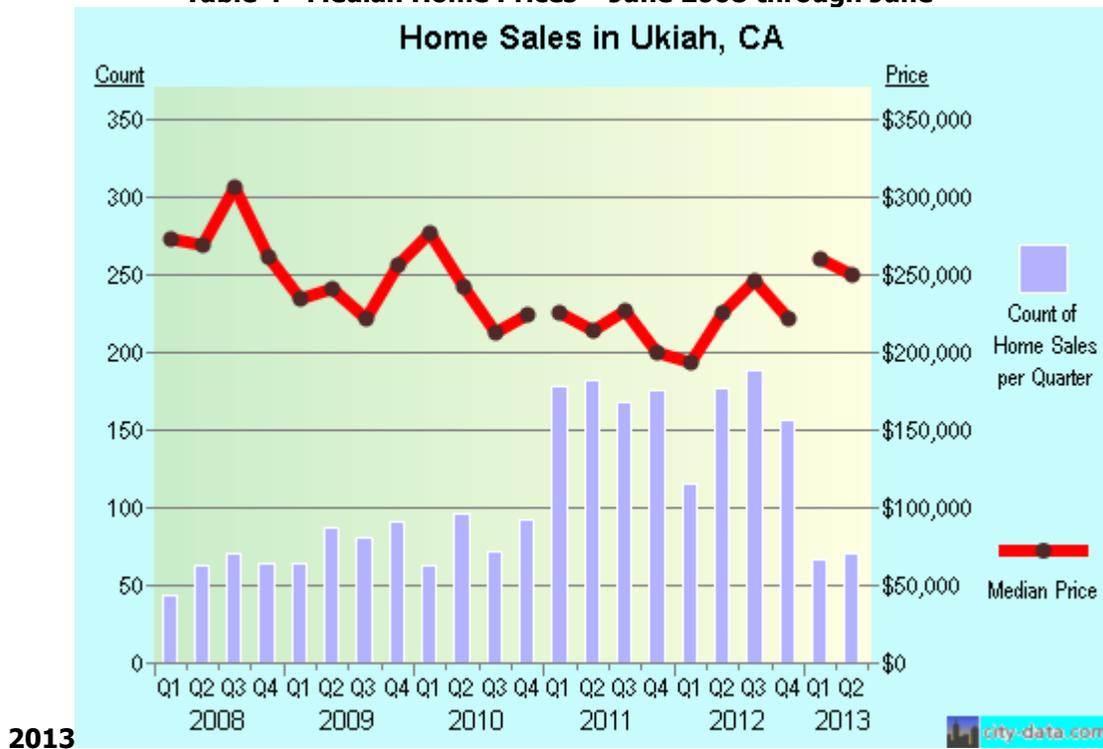

**Table 3 – Average Rental Costs**

Housing Type	2004	2009	2013
3/2 Single Family Home	\$1,280	\$1,370	\$1,163
Studio Apartment	\$630	\$700	\$700
2-Bedroom Apartment	\$730	\$810	\$815
2-Bedroom Townhouse	\$840	\$910	\$900

Source: Ukiah Daily Journal

Rental costs for single family homes have decreased and rental costs for and studio apartments, 2-bedroom apartments and 2-bedroom townhomes have remained the same since 2009.

**Table 4 –Median Home Prices – June 2008 through June  
Home Sales in Ukiah, CA**

(Source: www.city-data.com)

The median home price is have increased slightly from approximately \$240,000 to \$250,000 since 2011. In June of 2009, there were 148 foreclosure homes for sale on the Ukiah market. In September of 2013, there were between 36 and 53 foreclosure homes in the City limits.

**Overpayment:** U.S. Census data reveals that 1,909 of 6,523 (29 %) lower income households used more than 30% of their income for housing costs. This reflects the slow growth and development in the City and region in terms of new housing stock, and the relatively high monthly cost for rental units.

Table 4 Ukiah Households Overpayment by Tenure

	<b>Renters</b>		<b>Owners</b>		<b>Totals</b>	
	Number	Percentage	Number	Percentage	Total Households	Percentage
Extremely Low	769	91%	172	69%	641	87%
Very-Low	287	37%	287	37%	638	55%
Low Income	618	67%	515	41%	630	55%
Moderate	647	29%	440	63%	472	43%

\*U.S. Census Data 2010

Implementing Tasks are included in this Housing Element to address the overpayment issue. These include limiting the conversion of rental units to condominiums, limiting the conversion of single family homes to professional offices, pursuit of the consideration of an inclusionary housing ordinance, supporting applications for affordable rental housing financing, amending the zoning code to allow single room occupancy developments by right, permitting small lot subdivisions, and working closer with affordable housing advocates and developers to facilitate affordable rental housing.

## **What Have we Accomplished in the Past?**

Since 1990, 169 single family residential units and 349 multiple family units have been constructed in the City for a total of 518 residential housing units. The relatively low numbers over the past five years are a result of the lack of vacant land, a lack of unconstrained land, increased land prices, and a slumping economy.

The majority of new residential units over the past ten years have been affordable and market rate apartments, sweat-equity affordable units, and special needs housing. Even still, shortages remain for these types of housing.

The major affordable housing accomplishments the City has achieved include:

- The contribution of over 4-million dollars of Redevelopment Agency Housing funds to affordable housing projects since 1991.
- Established and maintained lower planning permit fees for affordable housing projects.

- Modified the commercial zoning district regulations to permit affordable and high density housing in all commercial zones.
- Modified the Planned Development zoning regulations to provide a tool for affordable housing projects to achieve maximum densities and receive relief from development standards.
- Modified the zoning code to establish density bonuses for affordable housing projects.
- Modified the zoning code to establish reasonable accommodation requirement for persons with disabilities.
- Encouraged the maximum possible densities in affordable housing projects and granting density bonuses.
- Sponsored HOME grants for affordable housing projects.
- Utilized CDBG funds for a variety of affordable housing related projects.
- Ongoing Staffing of the RDA Low and Moderate Income Housing Advisory Committee.
- Completed a Housing Conditions Survey in 2008 and secured a HOME grant for residential rehabilitation projects in 2009/2010.
- Approved and helped fund the permanent Buddy Eller Homeless Shelter Facility.
- Approved and help fund an important transitional housing project on the Buddy Eller Homeless Shelter site.
- Purchased properties on Cleveland Lane and Main Street for low and moderate income housing opportunities.
- Entered into an agreement with senior affordable housing developers to conduct due diligence regarding a senior affordable housing development on Cleveland Lane.
- Maintained a positive working relationship with affordable housing advocates.
- Secured an \$800,000 HOME grant in 2008 for housing rehabilitation and first time home buyer assistance. Completed six (6) first time home buyers loans during 2008-2010.
- Promoted and approved a number of infill high density affordable (extremely low, very low, and low income) housing projects, including the Summer Creek Village Apartments, Clara Court Apartments, Mulberry Street sweat equity single family homes, Cleveland Lane sweat equity single family homes, Main Street Village mixed use project, and others.

The Summer Creek Village affordable Apartments were financed in part with a City sponsored \$1 million HOME grant. The facility has 64 units with a large number of three and four-bedroom family units. It has a swimming pool, barbeque and picnic areas, basketball court, computer room, exercise facility, lounge, and spacious grounds. 11 of the units are reserved for extremely low income residents. The remaining units are reserved for very low and low income residents.

The Clara Court affordable apartment project was financed in part with City Redevelopment 20% set-a-side funds and is comprised of 32 units available to extremely low, very low, and low income residents. It is ideally situated on a major transportation corridor and bus route in close proximity to retail shopping, the Ukiah Valley Medical Center, and other services. Ground breaking is expected in 2010.

In October, 2010, the City deferred the \$413,284 water, wastewater, and electrical connection fees when it issued the building permit for the Clara Court project. These fees are now required prior to the final inspection and grant of occupancy.

- Completed a survey of mobile home park tenants to determine demographics, issues, and needs.
- Adopted a Mobile Home Park Rent Stabilization Ordinance – October 2010
- Secured a \$50,000 HOME grant to assist four participants in the first time homebuyer program.
- Secured a \$1 million dollar CDBG grant for 1) low income residents to participate in the City's sewer lateral testing and repair program; and 2) Major repairs and upgrades for an existing RCHDC affordable housing project.
- Entered into a negotiation agreement with a senior affordable housing developer to facilitate an affordable senior housing apartment complex on City-owned property.
- Completed administering a HOME grant for first time home buyer assistance program. Four participants secured loan funding that enabled them to become home buyers in the community. The four loans/grants totaled \$302,300.
- 2009-2014 Housing Production: Housing production in the City and surrounding Ukiah Valley has been sluggish for many years. Due to the significant economic decline beginning in 2008, the lack of housing production has slowed even further and new units within the City limits were essentially non-existent.
- The City is currently in negotiations with PEP Housing for the donation of the 1.4 acre site owned by the City. PEP is interested in constructing 42 low and very income senior units.

Table 6 Housing Production

Income Level	2009	2010	2011	2012	2013	2014	Total
Very Low	0	22	0	0	0	0	22
Low	0	0	0	0	0	0	0
Moderate	0	0	0	0	0	0	0
Above Moderate	0	0	0	0	0	0	0

Note: Units serving extremely low-income households are included in the “very low” category

## What are we currently working on?

Even with reduced Staff and limited resources, the City is currently engaged in a number of affordable housing projects.

**HOME Grant:** In 2013, the City, with the assistance of the Community Development Commission of Mendocino County, completed administering a CDBG grant for first time home buyer assistance program. Four participants secured loan funding that enabled them to become home buyers in the community. The four loans/grants totaled \$302,300. The City is currently seeking an additional grant to continue the program in 2014.

**Downtown Zoning Code:** The City adopted and is implementing a new Downtown Zoning Code (Form Based Code), which provides new opportunities for medium and high density residential development in and near the historic downtown. Incentives are being discussed for projects involving affordable housing that may include density bonuses, relaxation of parking requirements, and fast-track permit processing.

**City-Owned Property:** The City is working with an affordable housing developer on an affordable senior housing project to be located on City-owned property (to be sold to developers) near the urban core of the City near medical services, shopping, transit, etc.

The City is also in preliminary discussions with another interested housing partner regarding a second City-owned property in close proximity to the historic downtown core.

**CDBG Grant:** The City recently secured a \$1 million dollar CDBG grant for 1) low income residents to participate in the City’s residential sewer lateral testing and repair program; and 2) Major repairs and upgrades for an existing RCHDC affordable housing project.

**Local Housing Development:** The City Staff have been working with a local developer on a number of housing projects ranging from a new duplex in the downtown to a 30+ unit apartment complex adjacent to major shopping, offices and the local transit system. Also the City is donating 1.5 acres of infill parcels to PEP Housing for the construction of 42 low income senior units.

**New Approaches:** The City is developing new approaches to affordable housing facilitation due to the loss of the Ukiah Redevelopment Agency.

## **What are our Guiding Principles for Housing?**

The foundations for our guiding principles for housing are to provide housing for all in need and to do so in a way that responds to climate change.

1. Supply affordable housing to the full range of our workforce and all economic segments of our diverse community.
2. Protect the surrounding agricultural lands and avoid urban sprawl.
3. Carefully focus new housing development on vacant, underutilized, and redevelopment infill sites taking care to ensure compatibility and neighbourhood preservation.
4. Increase energy efficiency in our homes and promote green, sustainable building and careful infill development to reduce greenhouse gas emissions and the City's carbon footprint. These steps will decrease our contribution to global warming and will reduce energy costs to renters and owners.

## **Do We Have a New Housing Strategy?**

There were mixed results with implementing the 2009-2014 Housing Element. A lack of resources, the loss of the Ukiah Redevelopment Agency, and competing community driven priorities precluded full implementation success. These constraints and limiting factors are expected to remain to some degree so the updated Housing Element takes these factors into account. It is acknowledged that the regional fair share of housing units was dramatically reduced for Mendocino County and consequently for the City of Ukiah to account for the slumped economy, lack of population growth and historically low housing production numbers. This more realistic approach to defining the regional need creates a better chance for success. The strategy involves creating more opportunity for small infill housing in the urban core areas near transportation and other services, and where infrastructure is available to serve the units. The primary program to implement this strategy is to further reduce regulatory constraints for this type of development. The types of housing to be encouraged and targeted will be primarily for extremely low, very low, and low income households with an emphasis on rental units, smaller for-sale housing units, special needs housing, affordable student housing, and affordable senior housing. Above moderate income housing, while not the primary need, is still recognized as a need in the community. There will be continued assistance to homeless service providers as resources allow, and a zoning code amendment to allow homeless shelters in the C-2 (Heavy Commercial) zoning district. The strategy also calls for the same inclusionary housing ordinance called for in the adopted 2009 Housing Element, possible housing impact fees, and zoning code modifications to provide opportunities for farm worker housing.

The overall strategy also involves developing or increasing existing incentives for energy efficient, and green and sustainable housing projects. Also to preserve existing housing,

promote more rental housing, and develop a housing rehabilitation program for extremely low, very low, and low income property owners that would be focused on improving energy efficiency in existing homes. Finally, the new strategy includes working with the Ukiah Police Department and local apartment housing managers to develop strategies for increasing safety in their facilities through improved and consistent management practices. Copies of the Housing Element were provided to the sewer and water providers in accordance with Government Code section 65589.7.

Implementing programs are included to fulfil this overall strategy.

## Community Participation

The elimination of the Ukiah Redevelopment Agency dissolved the RDA Low and Moderate Income Housing Advisory Committee, whose charge was to seek applications and distribute the RDA 20% set-a-side funds. The Committee had broad representation and participated in the General Plan Housing Element update process over the years. The loss of this Committee, coupled with the struggling economy, reduction of available outside funding, non-profit lay-offs, etc., has negatively impacted the energy and enthusiasm for participating in the 2014-2019 Housing Element update process.

The public outreach campaign for the 2014-2019 Housing Element update project consisted of a public workshop conducted at City Hall, working with Northern California Legal Services, direct phone calls to and interviews with community stakeholders, letters to interested parties, public notice of the project sent to the local newspaper and broadcast via fax to all local media sources, and the posting of flyers in key locations throughout the City.

The community stakeholders included affordable housing developers, real estate professionals, architects and engineers, social service providers, leadership groups representing minority populations, health industry professionals, and local government officials. The responses are summarized below:

Table 7 Public Outreach

<b>Primary Suggestions from the Public Outreach Program</b>	<b>Response</b>
<i>Discuss how the loss of the Redevelopment Agency has affected the ability for the community to construct affordable housing</i>	The draft document includes such a discussion
<i>Add a discussion of public safety in regard to high density apartment complexes and the need to focus on strong management</i>	The draft document includes such a discussion
<i>Consider suggesting that a public safety impact fee</i>	Added to the list of programs

<i>on commercial and large scale residential development be established.</i>	
<i>Update the discussion/analysis of the homeless population. Include the rising number of mentally ill homeless individuals that do not want housing.</i>	The discussion of the homeless population has been updated
<i>Update the data base of vacant, underutilized, and "re-developable" properties</i>	The data base and map have been updated
<i>Document the lack of housing starts in the area over the past several years and the need to provide incentives to jumpstart the housing construction industry</i>	The draft document includes such a discussion
<i>Continue to emphasize the rising senior citizen population and the need for very low priced housing</i>	The draft document includes such a discussion
<i>Continue to suggest that a program be included calling for an affordable housing impact fee.</i>	The draft document continues to include such a program
<i>Continue to emphasize the need for community stakeholders to routinely communicate and work together.</i>	The draft document continues to include such a program

## Who Needs Housing in Ukiah?

Discussions with affordable housing providers and social service organizations, as well as the review of statistical data reveals that the primary housing needs in the City of Ukiah are unchanged from those identified in the 2009-2014 Housing Element:

- **Lower Income Households.** Extremely low, very low, low and moderate income households are in need of housing in the City of Ukiah. There is an overcrowding problem and an increase in makeshift unsafe and unhealthy housing accommodations.
- **Young Adults.** Rental housing for students and both rental and first-time home buying opportunities for young adults.
- **Persons with Special Needs.** People living with disabilities who require specific design or service considerations, such as full wheelchair-accessible apartments; people in group homes with semi-independent living; the homeless; people in need of mental

health care; farm workers; and people with severe illnesses. All of these groups are represented in the City of Ukiah.

- **Local Service Workers.** The increase in service oriented jobs and the increase in housing prices and rental costs have led to an increased need for housing affordable to local service workers.
- **The Senior Population.** Seniors with extremely low, very low and low incomes, and others who may desire to scale down and sell their homes for smaller housing units closer to services.
- **Female Heads of Households.** Single women with children who head their households.
- **Upper Income Households.** Higher level wage earners seeking upper end detached single family residences.

## **What services are provided to the homeless and what are their special needs?**

In 2007 Mendocino County prepared a *Continuum of Care Plan* that found that local homeless individuals and families had a wide range of needs, including emergency shelter, transitional housing, and permanent supportive housing. Emergency shelters provide immediate short-term housing typically limited to less than six months. Transitional housing provides housing between six months and two years, and typically includes specialized treatment for alcohol and drug abuse, intensive case management, mental health treatment, life skills and employment training, etc. Permanent supportive housing offers a stable residential environment with mental health counseling, job training, among other services.

Homeless populations are often transient rendering city/county jurisdiction lines meaningless. According to the *Continuum of Care Plan*, there are approximately 1,400 homeless people in Mendocino County at any given time. In 2009, another count was taken by the Mendocino County Social Services Department, which revealed a total homeless population of 1,206 persons. While it is impossible to determine is how many homeless people are in the City of Ukiah at any given time because the population is very transient. However, it is safe to assume that the number is significant because the majority of services for the homeless population are located within City limits.

An updated homeless persons survey was conducted by the Mendocino County Department of Social Services in 2011 and found the following:

- The highest percentage of homeless persons are Caucasian men between the ages of 31 and 50.
- The number of homeless military veterans has increased by approximately 2% since 2009.

- The number of homeless persons with physical and mental illnesses has increased 15% (physical) and 8% (mental) since 2009.
- The number of homeless persons experiencing chronic health issues has increased 11% since 2009.
- The majority of homeless persons continue to live outdoors.
- Long-term homelessness (6 months to 10 years) has increased since 2009.
- The main reasons for homelessness are no job/no money, can't pay the rent, no transportation, and alcohol/drug addiction.

### **The Buddy Eller Center – Permanent Homeless Shelter Facility**

The Buddy Eller Center Permanent Homeless Shelter Facility (shelter, meals, showers) located at 201 Brush Street opened in 2004 after the City facilitated approval of a series of winter homeless shelters. The capacity of the Center is 24 individuals and 40 persons in families with children for a total of 64. At times the capacity is exceeded, which requires special management measures. The facility is operated and managed with a high level of professionalism and success by the Ford Street Project, and it remains a crucial community facility.

In April, 2014, the Buddy Eller Center leadership announced that due to a loss of Federal funding in March 2013, the Center must close in July 2014. Significant local donations since March of 2013 have kept the shelter open, but it was not enough to avoid an unsustainable \$62,500 budget shortfall for the fiscal year.

The local Homeless Services Planning Group is meeting regularly to develop a plan for moving forward. Initial thoughts include opening a smaller shelter at the Ford Street Project facility that would focus on homeless families, as well as offer support designed to promote improved self-sufficiency.

### **The Ford Street Project Transitional Housing Facilities**

Transitional housing, as defined by H.U.D., is from six months to two years, and it is meant to be a housing bridge between shelter and permanent housing. During one's stay in transitional housing, tenants are case managed and provided services designed to increase tenant skills toward the self-sufficiency required for successful independent living. The Ford Street Project provides transitional housing for homeless single adults and to homeless families with children. Some of these units are in "scattered sites" in Ukiah:

- **748 Waugh Lane** - Six two-bedroom units for homeless individuals and families. This housing cluster has been successfully housing the homeless since 1988. Since these units are "off site," a residential manager occupies one of the apartments. Services and case management are provided.

- **"Progress House" at 200 Ford Street** - This facility is located across the street from Ford Street's main campus and houses homeless single males who have completed an aftercare program. Abstinence from alcohol and drugs is the goal for all these houses and apartment units.
- **"Unity Village" at 133 and 135 Ford Street** - This facility is located behind Ford Street Project and provides transitional housing for Ford Street program clients.
- **"T.O.T.I.L." (Transitional Opportunity Towards Independent Living)** – The site is located adjacent to the Buddy Eller permanent homeless shelter has been approved for construction.

### **The Ford Street Project Supportive Housing Program**

Since 1996, the Ford Street Project has received funding from HUD's Supportive Housing Program (SHP) through the department of Health and Human Services of Mendocino County to provide housing and services for homeless families and homeless individuals with disabilities in Mendocino County. This funding is used in a variety of ways. Currently it is used to fund transitional housing units. In addition, SHP funds are utilized to provide case management and drug/alcohol counseling to homeless clients. The SHP has been instrumental in Ford Street's work with the homeless, not only in creating more housing and service options for this population but in promoting intensive collaboration on behalf of the homeless among a number of concerned agencies throughout the county.

### **The Ford Street Project Garden Court Apartments**

A 10-unit apartment complex (formerly "The Garden Court Motel") for homeless, low-income adults, generally with psychiatric disabilities. Housing is "permanent", meaning that there is no target date for residents to move out to other housing. A resident manager is on the premises. There are 6 one-bedroom apartments and 3 two-bedroom apartments. Rents are based on criteria established by the State HOME Program and are pegged to resident income as determined at intake. Applications are available at the Manager's Unit at 1175 South State Street, Ford Street Project's Main Office at 139 Ford Street or through the Department of Mental Health Housing Coordinator.

### **Needs of the Homeless**

The homeless population and homeless services providers need continued support from the City of Ukiah to address issues and problems. The City should support the local Homeless Services Planning Group and its members, and other active groups and organizations when practical to assist in their efforts to provide shelter, clothing, food, counselling, and life's essentials to the homeless population.

According to homeless population support advocates, the primary needs of the homeless population are:

- A well-defined and clearer path from shelter to permanent housing, with clear goals and client attainments for each housing stage.
- An effective day shelter program which can actually train homeless persons and prepare them for full independent living, including job training that emphasizes specific skills for various kinds of jobs, how to be an effective tenant, developing parenting skills, learning to take instructions from authorities, developing communication skills, etc.
- Additional homeless facilities given the fact that the majority of the Mendocino County homeless population congregates in the Ukiah area to utilize available services, and the existing permanent shelter only has 64 beds.

Some have argued that the current permanent shelter has too many rules for a number of the chronically homeless who can't stop drinking, using drugs, etc., but operating and managing an "open" facility with no rules that would allow for virtually any sort of behavior may not be practical or reasonable. However, because of the high number of homeless persons and the low number of available homeless facility beds, opportunity for an additional facility or facilities has been identified as a local need that must be addressed in the next planning period.

## **Where can homeless facilities be located?**

The Ukiah Zoning Code currently permits Homeless facilities to be proposed and approved in the following zoning districts with Planning Commission approval of a Use Permit: CN (Neighborhood Commercial); C-1 (General Commercial); C-2 (Heavy Commercial/Light Industrial); PF (Public Facilities); M (Manufacturing); R-1 (Single-Family Residential); R-2 (Medium Density Residential) and R-3 (High Density Residential).

There is no location in the City where a homeless facility can locate without the approval of a Use Permit. However, an Implementation Task/Program is included in this Housing Element to allow homeless facilities in the Manufacturing (M) zoning district without the requirement for a Use Permit. There are approximately 22 vacant and underutilized acres and 3 prime redevelopable acres in the C-2 zone that could accommodate a second homeless facility in the City. These prime sites are situated in close proximity to transit routes, social service providers, medical facilities, and commercial services.

The need for an additional homeless shelter has not been identified as a high priority in the community. Moreover, the cost and lack of available resources are overwhelming. Regardless, the task of amending the zoning code to allow homeless shelters in the Manufacturing (M) zoning district without a Use Permit is carried over into the 2014-2019 Housing Element.

## **What can the City do to assist the homeless over the next five years?**

There are two primary ways the City can assist the homeless over the next five years. First, it can continue to provide support and possible funding to homeless services providers with a focus on helping to define the path from shelter to permanent housing, and helping to establish

an effective life-skill building day shelter program. Second, the City shall examine its zoning districts and consider making homeless facilities an allowed use rather than requiring discretionary review.

## **Is farm worker housing needed in the City of Ukiah?**

Ukiah is located in the most urbanized portion of Mendocino County paralleling the Highway 101 corridor. There are no working farms within the City limits, but there are working orchards and vineyards adjacent to the City, particularly to the east along the Russian River.

The Assessment of the Demand for Farm Worker Housing and Transportation in Mendocino County prepared in 2008 by the California Institute for Rural Studies found that in 2006, there were 4,163 farm workers in Mendocino County. Of those, 1,416 worked in Mendocino County for seven months or more, 673 worked in Mendocino County for 3 to 6 months, and 2,074 worked in Mendocino County for less than 3 months. The Assessment found that the majority of farm workers Countywide live in single family residences, rent individual rooms in single family residences, live in labor camps, apartments or trailers.

The Assessment found that 47% of the farm workers or approximately 1,957 live in the Ukiah Valley. Based on the findings in the Assessment, it is concluded that the majority of farm workers who live within the City limits live in single family homes, apartments, or mobile homes/trailers.

State Public Health and Safety Code Section 17021.5 requires employee housing with accommodations six or fewer employees to be allowed by right and treated as a single family residence rather than a dormitory, boarding house, hotel or other similar term implying that the employee housing is a business run for profit.

The City zoning ordinance allows single family residences by right in the R-1 (Single Family Residential) zoning district. It also does not limit the number of persons living in a residence, or preclude a group of employees, students, or other non-related persons from occupying the residence.

In both the R-2 (Medium Density Residential) and R-3 (High Density Residential) zoning districts, single family dwellings, duplexes, condominiums, apartment houses, and room and board residences are allowed by right without the requirement for a use permit.

The City zoning ordinance also contains an *Agriculture Exclusive* (A-E) zoning district. While no land within the City is zoned A-E, the regulations allow by-right "one family dwellings, trailers and accessory buildings, and farm buildings of all kinds, including labor camps when located upon farms and occupied or used by the owner, farm tenant, or other persons employed thereon or the non-paying guests thereof." Nothing in the statutes limits the number of dwelling units or how many persons can occupy the units.

It is concluded that the current zoning standards comply with the requirements of State Public Health and Safety Code Section 17021.5, and no new program involving code amendments is required.

## **Is transitional and supportive housing needed?**

Supportive housing is generally defined as permanent, affordable housing with on-site services that help residents transition into stable, more productive lives. Services may include childcare, after-school tutoring, career counseling, etc. Most transitional housing includes a supportive services component. The City regulates supportive housing as a residential use, provided supportive services are subordinate to the residential use.

There are a number of existing transitional and supportive housing facilities in the City of Ukiah, some of which are described above. The City zoning ordinance defines these types of facilities as "Community Care Facilities," and allows them for up to six persons in all residential zoning districts and in the C-1 (Community Commercial) zoning district without a use permit. Larger facilities housing between 7 and 12 persons are permitted in these zoning districts with a use permit. "Community Care Facility" is defined in the zoning ordinance as being "consistent with the definition contained in Section 1502(a) of the State Public Health and Safety Code." Section 1502(a) of the PHSC includes 12 different types of community care facilities including "transitional shelter care facility" and "transitional housing placement facility."

Currently, if a transitional or supportive housing use does not involve medical treatment or other formal services, and it is simply a residential living use, it is treated as a single family dwelling, duplex, or apartment complex identical to other single family dwellings, duplexes, or apartment complexes. However, this may not be completely consistent with Senate Bill 2, which states that all transitional and supportive housing constitutes residential uses. Accordingly, a program has been added to amend the zoning code to be consistent with Senate Bill 2.

## **Is there a high number of female heads of households in Ukiah?**

The 2010 census revealed that there were 866 female heads of households in the City, down from 944 in 2000. Of the 866, 63% or 547 were living under the poverty level.

**Table 8 - Female Heads of Household**

Community	Female Heads of Household / percentage of total population
Mendocino County (unincorporated)	2268 (3.8%)
<b>Ukiah</b>	<b>866 (5.4%)</b>
Willits	309 (6.3%)
Fort Bragg	437 (6.0%)

Many female heads of household have children under the age of 18. These households generally require affordable housing, since their incomes are often less compared to two-parent households. Housing for female heads of household is a high priority for the City of Ukiah.

## Is there a high number of extremely low income households in Ukiah?

Extremely low-income is defined as households with income less than 30 percent of area median income. The area median income in the City is \$43,432. For extremely low income households, this results in an income of \$13,030 or less for a four-person household. For example, most families and individuals receiving public assistance, such as social security insurance (SSI) or disability insurance are considered extremely low-income households. At the same time, a minimum wage worker could be considered an extremely low-income household with an annual income of approximately \$17,000 or less. The service worker who makes your sandwich at the local deli and your server at a local coffee shop could be earning \$8.00 per hour. These people have jobs that could qualify them as extremely low income households.

**Existing Extremely Low Income Needs:** In 2011, 941 extremely low-income households resided in the City, representing 17% of the total households. This was down from 2000 when there were 1,202 extremely low income households or 20% of the total households. Most extremely low-income households are renters (769) and experience a high incidence of housing problems. For example, many of extremely low-income households faced housing problems (defined as cost burden greater than 30 percent of income and/or overcrowding and/or without complete kitchen or plumbing facilities) and most were in overpayment situations.

**Projected Extremely Low Income (ELI) Needs:** The Comprehensive Housing Affordability (CHAS) data indicates that there are 172-owner and 769-renter ELI households in the City of Ukiah. Of the ELI households, 70 percent of owners and 82 percent of renters pay greater than 30 percent of their income on housing costs.

To calculate the projected ELI housing needs, the City assumed 50 percent of its 2012 low-income regional housing needs are extremely low-income households. As a result, from the low income need of 11 units, the City has a projected need of 6 units for extremely low-income households. Many extremely low-income households will be seeking rental housing and most likely facing an overpayment, overcrowding or substandard housing condition. Some extremely low-income households could be with mental or other disabilities and special needs. To address the range of needs, the City will employ a detailed housing strategy including promoting a variety of housing types, such as single-room occupancy (SRO) units and small lot subdivisions.

To address the housing needs of extremely low-income households, the City will undertake two programs during the planning period:

1. Identify and meet with nonprofit builders who specialize in building housing for extremely low-income households. This effort is designed to build a long-term partnership in development, gain access to specialized funding sources, identify the range of local resources and assistance needed to facilitate the development of housing for extremely low-income households, and promote a variety of housing types, including higher density, multifamily supportive, single room occupancy and shared housing.

Work in conjunction with other agencies to address the needs of the extremely low income households in the City. At least annually and on an on-going basis contact agencies and developers to facilitate implementing the program. Actions to be considered for inclusion in the program include prioritizing City funding, supporting grant and other applications for funding, and exploring housing types and construction methods to promote housing for ELI citizens.

### **Is there overcrowding in Ukiah?**

A common method of measuring overcrowding is to compare the number of persons to the number of rooms in the unit. The Census defines an overcrowded household as one that has more than 1.01 persons per room (not including kitchens and bathrooms), while units with more than 1.5 persons per room are considered severely overcrowded. In Ukiah, the data collected from the 2011 American Communities Survey shows that four percent of all occupied units were overcrowded.

Table 9 Overcrowding by Tenure

Overcrowding by Tenure				
Occupants Per Room	Owner Occupied		Renter Occupied	
1.00 or less	2,548	41%	4,346	70%
1.01-1.50	102	1.6%	102	1.6%
1.51 or more	<b>0</b>	<b>0</b>	62	1%
<b>Total</b>	<b>102</b>	<b>1.6%</b>	<b>164</b>	<b>2.6</b>

\*American Communities Survey 2011

## **Are there other types of special needs housing?**

Persons with disabilities in Ukiah face unique problems in obtaining affordable and adequate housing. This segment of the population, which includes individuals with mental, physical, and developmental disabilities need affordable, conveniently-located housing which, where necessary, has been specially adapted for wheelchair accessibility, along with other physical needs.

The living arrangements for persons with disabilities depend on the severity of the disability. Many persons live at home in an independent environment with the help of other family members. To maintain independent living, disabled persons may require assistance. This can include special housing design features for the physically disabled, income support for those who are unable to work, and in-home supportive services for persons with medical conditions. Accessible housing can also be provided via senior housing developments.

The majority of persons with disabilities live on an income that is significantly lower than the non-disabled population. Many disabled individuals live on a small fixed income which severely limits their ability to pay for housing. The Task Force on Family Diversity estimates that at least one-third of all persons with disabilities in the United States lives in poverty. Persons with disabilities have the highest rate of unemployment relative to other groups. For most, their only source of income is a small fixed pension afforded by Social Security Disability Insurance (SDI), Social Security Insurance (SSI), or Social Security Old Age and Survivor's Insurance (SSA), which will not adequately cover the cost of rent and living expenses even when shared with a roommate. In addition, persons with disabilities oftentimes experience discrimination in hiring and training. When they find work, it tends to be unstable and at low wages.

### **Description of Need**

A disability is a physical or mental impairment that substantially limits one or more major life activities. According to the 2000 Census, an estimated 25% of Ukiah residents (3,494 persons) have one or more disabilities. The most pervasive disabilities for the general population are physical and mental disabilities.

Physical Disabilities: While there are a number of well-managed affordable housing facilities that are accessible to persons with a physical disability, there is a need for additional accessible units. In 1990 only one percent of the City's housing units were accessible. In order to accommodate the City's population with physical disabilities, there is a need to adapt houses or apartments for wheelchairs and other special requirements. Both federal and State housing laws require certain features of adaptive design for physical accessibility in all multifamily residential buildings with four or more units built for first occupancy starting March 13, 1991. However, numerous dwelling units built before that date are not subject to these accessibility requirements. This, however, does not assist individuals – particularly seniors – who choose to remain in their homes rather than move to assisted living facilities and/or other newly constructed units.

**Mental Disability:** According to 2000 Census data, there are a number of persons with a severe mental disability in Ukiah. This includes a large proportion of the homeless which are often thought to have mental disabilities. Persons with mental disabilities are a critically under-served population with respect to housing. Approximately 20-50 percent of these are capable of living semi-independently in their own supported housing units with assistance in maintaining their apartment, the provision of meals and obtaining transportation, as do other persons with disabilities.

While there is a number of well-managed permanent living and day treatment facilities and programs to serve persons with mental disabilities, there remains a need for additional facilities.

The 2000 Census recorded the disability status of the civilian non-institutional population of City residents. Approximately 21 percent of residents in the City reported as having a disability. The disability breakdown can be seen in the table below. The largest percentage (26 %) of the disabled population has a physical disability. The second largest populated group is that of employment disability of 22 percent.

**Table 10 Persons with Disabilities**

Persons with Disabilities by Type		
	Number	Percentage
Sensory disability	801	13%
Physical disability	1,619	26.4%
Mental disability	1,171	19%
Self-care disability	654	10.6%
Go-outside-home disability	509	8.3%
Employment disability	1,364	22%
<b>Total Persons with disabilities</b>	<b>6,118</b>	<b>100%</b>

### **Elderly Population**

An analysis of the needs of elderly or senior households or persons is important for four reasons: 1) many elderly have fixed, limited incomes; 2) many elderly persons are “over-housed” (living alone or with two people in a three or four bedroom house); 3) some elderly have mobility and health problems that can create special housing needs; and 4) recent projections indicate an increase in the elderly population in the planning period, both those currently living in the area City of Ukiah.

According to the 2010 Census, there are a total of 1,375 owner-occupied housing units and 665 renter-occupied housing units of which 2,040 are senior households. Table 3-16 represents householders by tenure and age in the City of Ukiah.

**Table 11 Senior Households**

<b>Senior Households</b>						
	<b>Owner</b>		<b>Renter</b>		<b>Total</b>	
	Number	Percent	Number	Percent	Number	Percent
Total 65 and older	876	14%	514	8	1,390	22
Total 64 and under	499	8%	151	2	650	10
<b>TOTAL</b>	<b>1,375</b>	<b>22%</b>	<b>665</b>	<b>10%</b>	<b>2,040</b>	<b>32%</b>

**Large Households**

Large families can have special housing needs if they cannot find affordable, large housing units then and living conditions may become overcrowded. The Table below shows the total occupied housing units by the number of persons living within each unit. This information is shown for owner-occupied and rental housing.

For owner-occupied units, the highest percentage is for a two-person unit (59%). Approximately twelve percent of the owner-occupied households are occupied by five or more persons. For renter-occupied units, the highest percentage is a two-four-person household (60%). Less than two percent of the renter-occupied units are occupied by five or more persons.

**Table 12 Large Family Households**

<b>Large Family Households</b>				
	Rental	Percent	Owner-occupied	Percent
2- 4 person household	1,662	60%	1,552	59%
5+ person household	431	2%	322	12%

**Strategies and Programmatic Responses to Meet Projected Needs**

Appropriate housing for persons with mental or physical disabilities include very low cost units in large group home settings (near retail services and public transit), supervised apartment settings with on- or off-site support services, outpatient/day treatment programs, and inpatient/day treatment programs, crisis shelters and transitional housing.

In 1984, Title 24 of the State Uniform Building Code mandated that all multiple-family residential construction projects containing in excess of 5 units under construction after September 15, 1985, would conform to specific disabled adaptability/accessibility regulations. In

1988, the Federal government enacted the U.S. Fair Housing Amendment Act, also with the intent of increasing the number of rental units being built that would be accessible to handicapped individuals. In July 1993, the State of California issued "California Multifamily Access Requirements" based upon the Act. Unfortunately, the actual increase in the number of handicapped-accessible units available on the current rental market has been small.

The City does not require special building codes or onerous project review to construct, improve, or convert housing for persons with disabilities. Both the federal Fair Housing Act and the California Fair Employment and Housing Act impose an affirmative duty on local governments to make reasonable accommodations (i.e., modifications or exceptions) in their zoning and other land-use regulations when such accommodations may be necessary to afford disabled persons an equal opportunity to use and enjoy a dwelling. For example, it may be a reasonable accommodation to allow covered ramps in the setbacks of properties that have already been developed to accommodate residents with mobility impairments. The City allows homeowners to build ramps into single-family dwellings to allow first floor access for physically disabled residents. Such ramps or guardrails are permitted to intrude into the standard setbacks required under zoning, and are subject only to a building permit. This provision eliminates the need to obtain a zoning variance.

The City also makes rehabilitation funds available to income qualified households for accessibility improvements. The Housing Rehabilitation Program, funded with a HOME grant has been designed in part to address these needs by providing affordable loans to assist disabled tenants to improve their rental units to meet their physical needs.

The housing needs of several other categories of disabled persons, including developmentally disabled persons and the mentally ill are typically not addressed by Title 24 Regulations. The housing needs of persons with these types of disabilities, in addition to basic affordability, range from needing slight modifications of existing units to the need for a variety of supportive housing arrangements. Some of this population can only live successfully in housing which provides a semi-sheltered, semi-independent living state, such as clustered group housing or other group- living quarters; others are capable of living independently if affordable units are available.

Group-home living quarters for a variety of specific disabled clientele groups have traditionally been found intermixed within Ukiah's residential neighborhoods. Consistent with State law, group homes with six or fewer residents per facility are allowed by right in all residential zones. Care facilities with seven or more persons are also permitted in all residential districts and several commercial districts, subject to a conditional use permit.

## **What types of housing are needed?**

- **Rental Units.** Rental units for larger families, particularly for extremely low, very low and low income households. Small rental and for sale units, such as single room occupancy studios, particularly for seniors, students, low wage earners, female heads of household, and farm workers.

- **Smaller For-Sale Housing.** Smaller attached and detached for-sale units affordable to low and moderate income households, and first-time homebuyers. Also, small lot subdivisions. In addition, the preservation of mobile home parks as a contributor to the local affordable housing stock has become significantly important.
- **Special Needs Housing.** Special needs housing and housing with service components. This includes housing for persons with physical and mental impairments, and/or other special needs, as well as farm worker housing that may be seasonal.
- **Student Housing.** Rental housing for Mendocino College students has been a priority for the College and is a priority for the City. This could include dormitory style housing with living units and a communal kitchen/ding facility.
- **Senior Housing.** Affordable housing demand for the Senior citizen population has increased and is expected to continue growing in the future. In particular, housing units for those seniors in the *Extremely Low* income category.
- **Above Moderate Income Units.** Detached for-sale units, rental apartments, and for-sale and rental condominiums available to higher income households.

## What types of housing does Ukiah have?

Table 13 provides a breakdown of the total housing units by type of structure for 2000 and 2008. In 2013, it was estimated that there were 6,523 housing units in the City. As indicated, the majority of the units (55%) in Ukiah are single-family units. The variety of housing types in Ukiah fairly diverse.

Table 13 Housing Units by Type

Housing Units by Type*		
	Number	Percent
Single Family Detached	3,596	55%
Single Family Attached	412	6%
Two to Four Attached	839	13%
Five plus Attached	1,237	19%
Mobile Home	439	7%

TOTAL:	6,523	100%
--------	-------	------

\*California Department of Finance 2010

## What is the vacancy rate by tenure?

The Department of Finance reported 330 vacant units, which is five percent of the total housing units in the City.

Table 14 Housing Vacancy

<b>*Housing Stock by type of Vacancy</b>		
	Number	Percent
For Rent	136	2
Rented not occupied	7	.01
For sale only	73	1.1
Sold not occupied	13	.1
Seasonal Use Only	25	.3
All other vacant	76	1.1
TOTAL:	330	5.0

\*California Department of Finance 2010

## How much housing is needed?

- MCOG Regional Housing Needs.** Under California law, every city and county has a legal obligation to respond to its fair share of the projected future housing needs in the region in which it is located. For Ukiah and other Mendocino County jurisdictions, the regional housing need is determined by the Mendocino Council of Governments, based upon an overall regional need number established by the State. The fair share numbers establish goals to guide local planning and development decision making.

In 2013, the MCOG in partnership with representatives from local City and County jurisdictions met and agreed upon the local fair share housing needs.

Table 15 – 2013 Mendocino Council of Governments Regional Housing Needs for Ukiah

Years	Extremely Low	Very Low	Low	Moderate	Above Moderate	Total
2009-2014	65	134	65	120	75	459
2014-2019	9 (50% of VL and L)	11	7	7	20	46

**Limited Population Growth.** As noted in Table 1, there has been very little population growth over the past five years. However, housing needs remain, particularly for extremely low, very low and above moderate income households. This interesting need statistic reflects the lack of overall housing starts in the community due to the slumping economy and the loss of the City’s Redevelopment Agency.

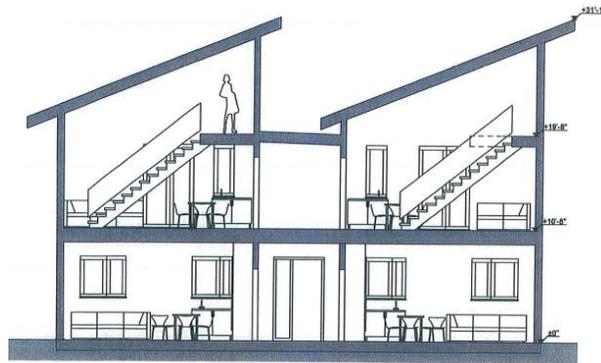

**Housing Production since 2009:** Even with a reduction of regulatory constraints and continued City support, housing production since 2009 has dropped dramatically. Four single family residential units were constructed in since 2009, and the Clara Court 34 unit affordable housing project was constructed and opened in 2010.

**Table 16 – 2013 Housing Production**

Year	Extremely Low	Very Low	Low	Moderate
2009	0	0	0	3
2010	22 (Transitional)	34	0	1
2011	0	0	0	0
2012	0	0	0	4
TOTAL	22	34	2	4

Additionally, a number of housing projects were approved by the City Planning Commission in the past couple of years, but not yet constructed. These include:

- 30+ apartment units on Old Talmage Road
- A mixed-use project including seven 1-bedroom apartment units and 5 efficiency Single Room Occupancy apartment units.
- A small Planned Development with 4 1-bedroom apartment units and a efficiency studio unit above an existing garage.

**Efficiency Single Room Occupancy Units Approved by the Planning Commission**

**Where can new housing be located?**

The 2009 Vacant and Underutilized Land Map was updated in January 2014 (Appendix 3). Over the past 4-5 years there has been a very minor reduction in vacant and underutilized land available for housing development (3 acres).

**Table 17 – Vacant and Underutilized Land**

<b>Year</b>	<b>Total Vacant and Underutilized Land</b>
2009	108 acres
2014	105 acres

The vacant and underutilized land continues to be spread out in the City with a very limited amount of large vacant parcels. Of the last remaining larger properties, most can be developed with residential land uses, but because of location (prime commercial) it is not probable. However, the enabling zoning and regulatory framework for the development of these parcels will continue to permit residential development.

The primary opportunity sites for very low, low and moderate priced rental and ownership housing are vacant infill parcels, underutilized land, and parcels ripe for redevelopment. To

successfully develop these sites, traffic, design compatibility, infrastructure, neighbourhood compatibility, and other issues must be analyzed.

- **Infill Parcels.** The Vacant and Underutilized Land Map updated in 2014 shows a number of important infill opportunity sites within the City Limits. These parcels are close to existing infrastructure and situated along transportation corridors, and are close to the downtown, retail opportunities, medical services, and professional offices. Development of these parcels will promote increased pedestrian activities and will lower the City’s overall carbon footprint.
- **Underutilized Land.** There is underutilized land throughout the City which provides opportunity for all types of needed housing.
- **Redevelopment Sites.** There are a number of key developed properties in and around the downtown and along important transportation corridors that are poised for redevelopment. The sites listed in the following table represent sites with the greatest potential for redevelopment within the planning period.
- **Site Consolidation.** There are a number of key sites that are contiguous to one another with the potential to be combined to accommodate larger projects.

**Table 18 – Redevelopment Sites**

Property Owner	Address	APN	Parcel Size (sq ft)	Percent (%) Developed	Current Use	Potential Units (see note below)	GP & Zoning	Constraints?
Somers Geraldine SUCCTTEE	290 Seminary Ave	0226304	23,814	73%	Retail/Program Services	13 total 8 probable	C C-1	No

<b>TOTAL POTENTIAL UNITS</b>						<b>222 total 170probable</b>		

**NOTES:**

1. The potential number of units was determined by factoring in the number of units allowed by zoning, the applicable development standards, the size of the parcels, the shape and configuration of the parcels, the percentage of existing development, surrounding land uses, on-site field work, and in some cases, subjective, yet professional opinions. Additionally, the existing development on all of the identified sites is aged and in some cases dilapidated, which increases the opportunities for redevelopment and infill affordable housing.

The Ukiah General Plan and Zoning Code permits high density residential development in the C-1 (Community Commercial) zoning district. While full high density residential development is possible, the potential number of units assumes a mix of residential and commercial (25% to 50% residential). This assumption is based on the mix of recently constructed mixed-use projects, and discussions with local and regional developers concerning how mixed-use projects must “pencil-out” to be financial successful.

2. The maximum density allowed in the high density and commercial zoning districts is 28 units per acre.
3. There is a need for 18 extremely low, very low, and low income units. There is opportunity for 280 units on residentially zoned land (vacant, underutilized and redevelopable parcels).
4. It should be noted that not all commercial zoned sites are anticipated to be developed residentially. However, as noted above, there are more than enough opportunity sites to meet the local need.
5. The Ukiah Airport Master Plan limits some parcels to two-stories which is considered a constraint because it could disallow maximum density under the zoning. The Airport compatibility zone maximum density in these areas is 90 people per acre, which does not represent a constraint because it far exceeds the maximum density under the zoning (28 units per acre).
6. No other land use controls significantly constrain the parcels. The City zoning code does not contain a floor area ratio standard, and the height limit, yard setback, and lot coverage standards in the C-I zoning district are generous, which encourages infill affordable housing development.
7. The Medium Density Residential (R2) and High Density Residential (R3) zoning districts allow owner occupied and rental multifamily residential land uses by-right without a use permit.
8. The maximum density allowed in the high density and commercial zoning districts is 28 units per acre.
9. There is a need for 18 extremely low, very low, and low income units. There is opportunity for 280 units on residentially zoned land (vacant, underutilized and redevelopable parcels).
10. The Cleveland Street parcels are currently in the process of being donated to PEP Housing for the construction of 42 senior affordable units. These parcels will be combined.

The regulatory incentives that provide increased opportunity for these sites to redevelop include the availability of the Planned Development (PD) zoning tool, no floor are ratio standard, a generous height limit, limited yard setbacks in the commercial zones, (grants) for façade and infrastructure improvements.

The sites were chosen because of existing worn or dilapidated structures, near-by successful revitalization efforts, reasonably foreseeable near-by future projects, and other factors. As indicated in footnote number 1, on-site field work was performed on each parcel to determine if and how much affordable housing could be added to the sites given the location and type of existing development, parcel configuration, and other factors.

Additionally, it should be noted that the City has been successful in attracting housing projects in the C-1 (Community Commercial) zoning district. Approved and constructed projects with full residential development on commercially zoned parcels include a 6-unit apartment complex on North Main Street and a 12 unit apartment complex on South Main Street. Both of these projects are situated in the downtown area and in close proximity to commercial services, medical services, bus routes, and governmental services.

Standard practice of the City of Ukiah Planners is to promote residential development on the commercially zoned property identified as prime for affordable housing development. Programs has been added to post the suitable sites map and associated information on the City's website and to prepare hard-copy hand-out material for property owners and developers.

## **Is there enough suitable land available to meet the housing need?**

The City's share of the regional housing need is 46 units and there is plenty of appropriately zoned, unconstrained land to accommodate this desired number of units. The total probable units for the vacant, underutilized and redevelopable land within the City is 738 units. The primary reason for this is because the City permits medium and high density residential development in its commercial zoning districts. Another reason is that there are a substantial number of underutilized older commercial properties where residential units could be added. The zoning code permits mixed commercial/residential land uses in all commercial zoning districts. Additionally, the City's Planned Development zoning tool provides for creative, well planned residential development and the flexing of typical development standards and densities.

The Housing Element strongly encourages carefully infill medium and high density residential development because of the close proximity to existing infrastructure, transportation corridors, social services, commercial uses, and medical facilities, and to prohibit impacts on surrounding agricultural lands that results from urban sprawl.

## **Are there constraints to housing development in Ukiah?**

The City has regulatory constraints (fees/exactions and zoning standards), as well as environmental constraints just like every other community in California. The environmental constraints include traffic, drainage/flood zones, mature trees, and airport compatibility. All of these constraints affect future development to varying degrees, and each site listed in the Vacant and Underutilized Land Survey (Appendix 3), was examined not only for the presence of constraints, but to what degree the constraints would impact the future development of housing units.

The following table provides a listing and details of constraints to housing development.

**Table 19 - Constraints**

<b>Constraint</b>	<b>Detail</b>
Fees and Exactions	A new fee schedule was adopted in 2007. Reduced planning permit fees are charged for affordable housing and special needs housing projects.
Wastewater (Sewer) Treatment	The wastewater treatment plan upgrade and expansion project has been completed and sufficient capacity is available to serve the identified vacant, underutilized and redevelopable parcels.
Water Storage and Capacity	A water storage project has been completed, which added nearly 2 million gallons of storage to the City's water storage system, and an upgrade to the water treatment plant has been completed. Sufficient water exists to serve the identified vacant, underutilized and redevelopable parcels.
Zoning and Land Use Controls (see below)	<p>The amendments called for in the 2004 Housing Element were completed in 2008. Additionally, the City is working on a Downtown Zoning Code project that will provide more opportunity and certainty for housing development in the downtown. Medium and high density housing is now permitted in all commercial zoning districts, and the Planned Development tool has been used to facilitate unconventional housing and alternative development standards. Zoning is no longer considered a constraint.</p> <p>The City has lot coverage, yard setback, height and other regulatory constraints to development. While these zoning standards are typical, the City also does not have a Floor Area Ratio (FAR) standard, which limits development in other communities. The City also has a Planned Development overlay zoning classification, which provides flexibility for development projects.</p> <p>Additionally, in 2008, the City adopted new zoning regulations establishing reasonable accommodations for persons with disabilities (see procedure below).</p>
Airport	There are density limitations and 3-story buildings (other than for public facilities) are disallowed in the B2 Infill area north of the airport. However, many of the identified vacant, underutilized and redevelopable parcels are not located in the B1 or B2 infill area north of the airport.
Drainage	The City adopted new <i>Low Impact Development</i> drainage requirements which could result in lower costs for housing projects.
Traffic	The City adopted a City-Wide traffic study in 2007 and if traffic impact fees are considered in the future, reduced fees for affordable housing projects may be adopted. Additionally, the City has an adopted Capital Improvement Program that includes a number of significant street and intersection improvements that will reduce traffic related constraints for the identified parcels.
Parking	The Ukiah City Code requires 1 parking space for 1-bedroom apartment units and 2 spaces for 2-bedroom apartment units. However, the Planned Development zoning tool can be used to relax this standard if a proposed development

	such as senior housing can demonstrate that less parking would be needed.
Flood Zones	100-year flood zones and flood-ways exist in the City, but ample suitable land is available to meet the housing need. Most of the identified vacant, underutilized and redevelopable parcels are not situated in a 100-year flood zone.
Permit Processing Procedures	Permit processing for all permits is generally faster and less costly than surrounding jurisdictions. Priority processing is provided for affordable and special needs housing projects.
Housing for Persons with Disabilities	The zoning code was amended in 2008 to include provisions for reasonable accommodation (procedure listed below). Additionally, planning permit fees for special needs housing projects are even less than those charged for affordable housing projects.
Building Codes	<p>The City has adopted the 2007 California Building Codes. These codes have not presented a hardship to affordable housing developers. The State of California and the City of Ukiah will adopt the new 2010 California Codes on January 1, 2011. All building permit applications which are submitted after January 1, 2011 will be required to comply with these new regulations. One of the most significant changes that is anticipated in the new codes is that all new residential occupancies will be required to have fire suppression systems (fire sprinklers). This will add addition costs to affordable housing projects.</p> <p>The City is examining the possibility of using Redevelopment Housing 20% set-a-side funds to offer grants or low interest loans to assist affordable housing developers to comply with this anticipated new requirement.</p> <p>The City of Ukiah code enforcement activities have become complaint driven ever since the loss of the Code Compliance Coordinator position due to budget cuts. However, City staff due initial code compliance cases when they are observed during routine inspection and field observations.</p>
Cost of Land and Financing	<p>Currently, the cost of land is lower than it has been in many years. This is primarily due to the economic downturn. Similarly, the availability of land is higher than it has been with a larger than average number of properties on the market.</p> <p>While financing is tight, there is local optimism that lending institutions are relaxing recent restrictions and the financing market is opening up. Additionally, interest rates are remaining low, and the City's first time home buyer program has been very active over the past year.</p>
Cost of Construction	According to PEP Housing, a local affordable housing builder, the cost of construction in Ukiah is comparable to that of neighbouring counties of Sonoma and Lake. Typical construction costs are between \$190 and \$215 dollars per square foot.
High Density Housing Management	The Ukiah Police Department have expressed concern about the development of new affordable housing projects that do not have requirements for updated and consistent

	management practices that support safety. The Police have found that the key to safe affordable housing is strong management. A new policies and implementing task have been added to address this concern.
--	---

**Housing for Persons with Disabilities Procedure:**

Request: A request for reasonable accommodation may be made by any person with a disability as defined under the federal fair housing act and California fair employment and housing act, or his/her representative or any entity, when the application of a regulation under this chapter acts as a barrier to fair housing opportunities. In general, a person with a disability is a person who has a physical or mental impairment that limits or substantially limits one or more major life activities, anyone who is regarded as having such impairment or anyone who has a record of such impairment. A request for reasonable accommodation may include modifications or exceptions to the regulations, standards, policies and practices for the siting, placement, construction, development or use of housing or housing related buildings, structures and facilities that would eliminate regulatory barriers and provide persons with a disability equal opportunity to housing of their choice.

Application Submittal: A request for reasonable accommodation shall be submitted on an application form provided by the director of the department of planning and community development including documentation of the disability and any other information required to make the determinations required by this section.

Review Of Application: Applications for reasonable accommodation shall be reviewed by the director of the department of planning and community development or designee, or may be referred to the authority taking action on a concurrent application.

In granting an application for reasonable accommodation, the director may impose any conditions of approval relating to the findings above as deemed practical and necessary including, but not limited to, restoration of the property to its former condition and recording in the office of the county recorder notice thereof.

**Can certain constraints be overcome or resolved to provide more opportunity for housing?**

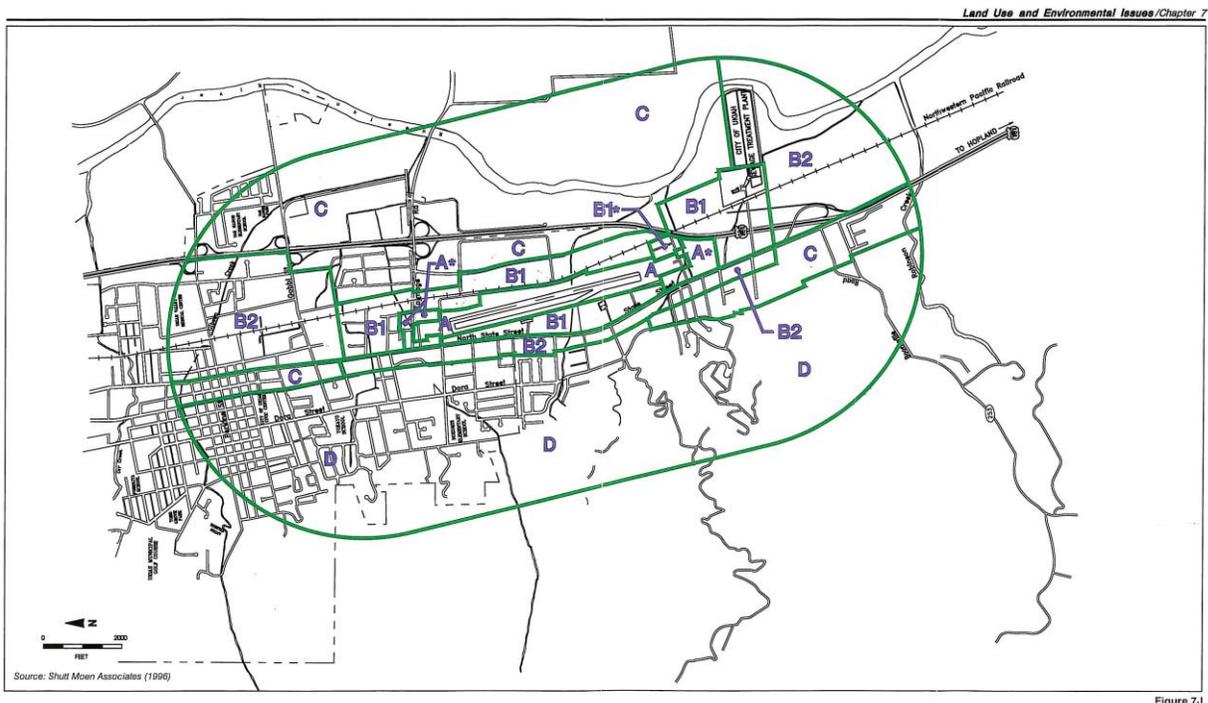

Since adoption and certification of the last General Plan Housing Element in 2011, progress has been made to resolve constraints. These efforts include the adoption of the new Downtown Zoning Code which encourages more housing in and around the downtown, street improvements (East Perkins Street), drainage infrastructure improvements (East Perkins Street), etc.

The wastewater treatment plant and water treatment plant were recently upgraded and have the capacity to serve future housing development on the identified vacant, underutilized, and redevelopable parcels.

Additionally, the City has secured a CDBG grant to help fund sewer lateral inspections and repairs for extremely low, very low and low income residents.

The HOME grant First Time Home Buyers program has enabled very low and low income residents to purchase homes in the community.

### Airport Compatibility:

Land Use Compatibility Map  
Ukiah Municipal Airport

**The Airport Land Use Compatibility Zone Map**

The "A", "B1" (Infill) and "B2" (Infill) compatibility zones have the following standards for development:

**Table 20 – Airport Master Plan Requirements**

<b>Zone</b>	<b>Max Density</b>	<b>Parcel Size for New Subdivisions</b>	<b>Open Space</b>	<b>Height</b>
A Zone: Runway Protection Zone	10 people per acre	0	All	7 to 1 slide slope from runway center line
B1 Zone – Infill Area North of Airport: Approach and Departure Zone	60 people per acre	10 Acres	30%	7 to 1 slide slope from runway center line
B2 Zone - Infill Area North of Airport: Extended Approach and Departure Zone	60 people per acre	2 acres	30%	7 to 1 slide slope from runway center line

\* If development projects in these zones can meet these requirements, they can proceed without an Airport Comprehensive Land Use Plan consistency determination from the Mendocino County Airport Land Use Commission (ALUC). However, if any project involves a General Plan amendment, rezoning, or specific plan, it is required to be submitted to the ALUC for a CLUP consistency determination.

As noted in the Table, the Ukiah Airport Master Plan indicates that residential subdivisions and multi-family residences are not normally acceptable in the B1 and B2 airport compatibility zones. However, the Plan also indicates that "These uses typically do not meet the density and other development conditions listed. They should be allowed only if a major community objective is served by their location in this zone and no feasible alternative exists."

There have been a number of multi-family residential projects proposed in the B1 and B2 Infill compatibility zones north of the airport over the past several years. The most notable of these is the 64-unit Summer Creek Village affordable housing project. While this project served the major community objective of providing much needed affordable housing, it also complied with the density and other requirements of the B2 infill compatibility zone. Based on the long-standing procedural agreement with Mendocino County, the project did not need a formal consistency review from the Mendocino County Airport Land Use Commission because both City and County Staff determined that it was clearly consistent with all the requirements for the B2 infill area.

The Summer Creek Village project was located on a large enough parcel to meet the 60 people per acre density standard. The primary vacant and underutilized sites identified in the 2009 survey that are in the B1 or B2 airport compatibility zones are as large or larger than the Summer Creek Village parcel, therefore it is confidently assumed that multi-family residential projects could be developed on these parcels.

These constraints result in less opportunity for housing development. However, the City highly values the airport as an integral component of its economic development strategy. Accordingly, the City seeks to balance the affordable housing and economic development goals of the City.

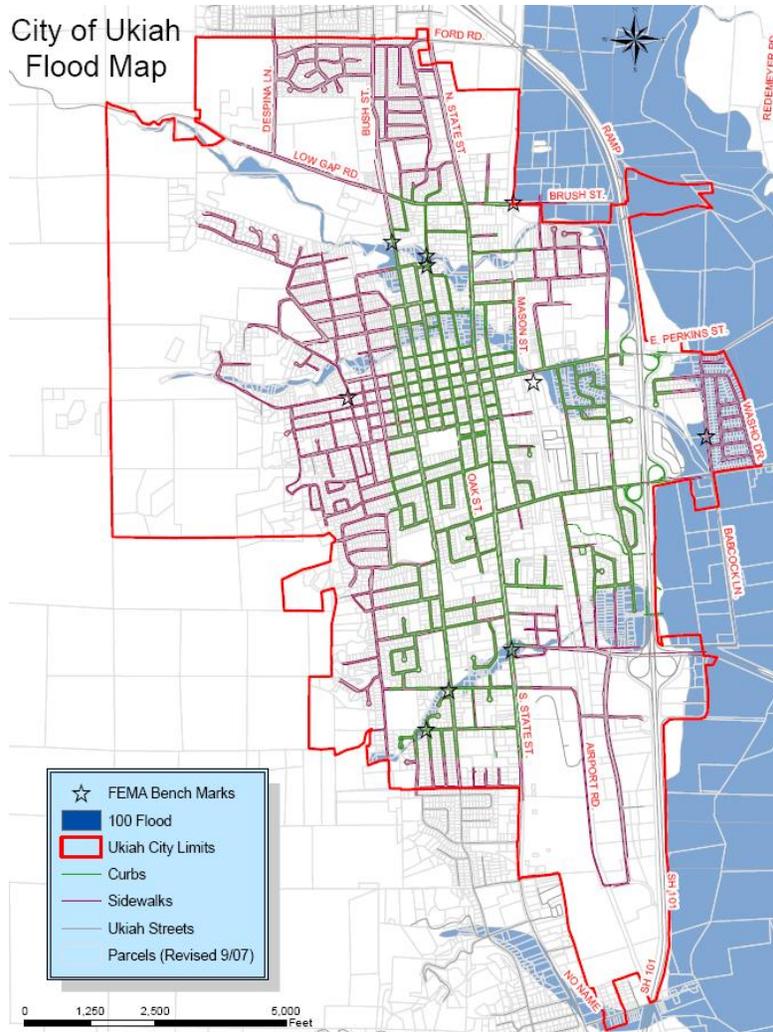

It should be noted that none of the identified vacant, underutilized or redevelopable parcels are located in the "A" compatibility zone.

It should be further noted that most of the identified vacant, underutilized or redevelopable parcels are not significantly burdened with airport compatibility zone constraints.

In the event, a housing developer proposes to build on land within the airport B1 infill compatibility area, here is a summary of the required steps and process:

1. An affordable housing developer applies to construct 28 units on a one-acre parcel in the airport B1 infill compatibility zone area which allows a maximum density of 60 people per acre. Using the 1.92 people per unit factor, City staff determines that the project would result in 54 people per acre, and that it would be in compliance with the B1 zone.
2. The developer decides to seek a density bonus of 25% (7 units).
3. Staff determines that this would add 13 people to the site for a total of 67 people, which would exceed the density standard of 60 people per acre. The Ukiah Regional Airport Master Plan indicates that projects exceeding the density standard (or other standards) should "only be allowed if a major community objective is served by the project in the proposed location and no feasible alternative location exists."
4. Staff refers the project to the Mendocino Airport Land Use Commission for a "consistency determination", making the argument that the project serves the major community objective of providing affordable infill housing, and that no feasible alternative location exists.
5. If the Land Use Commission finds that even though the project exceeds the allowable density in the B1 zone, it serves a major community objective, and that no feasible alternative sites exists, and then approves the project, it would advance to the City Zoning Administrator or Planning Commission for final action.
6. If the Land Use Commission finds that the project does not meet an important community objective and/or other alternatives sites exist, and says "no" to the proposal, City staff could schedule the matter for a final determination by the City Council, who on a 4/5 votes could override the Mendocino County Airport Land Use Commission.

**Flood Zones:**

**The City of Ukiah Flood Zone Map**

A number of vacant and/or underutilized parcels are situated within the 100-year Flood Zone, which requires structures and roads to be elevated and potentially other measures to protect life and property in the event of a 100-year flood event. This represents potential increased cost associated with the future development of these parcels. The City is currently examining the Flood Zone Maps (1985) to determine if any of the zones warrant a *Map Correction* application to the Federal Emergency Management Association. This exercise could result in a reduction in the flood zone constraints.

An implementation program has been added to identify a prime affordable housing infill site currently burdened by flood zone issues and pursue an engineering study and possible FEMA map correction to eliminate this constraint.

**Traffic:** Traffic congestion, particularly along the City’s major street corridors can affect the developability of some parcels. However, the City’s adopted 2010-2011 Capital Improvement Program (CIP) identifies street and intersection improvement projects and funding sources to remedy many traffic congestion problems.

Future development projects may require the preparation of traffic studies to determine potential impacts and reasonable mitigation measures for projects outside the area covered by identified CIP projects.

## What are the current land use controls for housing development?

**Table 21 – Zoning Standards**

ZONING DISTRICT	FRONT YARD SETBACK	SIDE YARD SETBACK	REAR YARD SETBACK	MAXIMUM HEIGHT	MAXIMUM LOT COVERAGE	REQUIRED SITE AREA	MAX DENSITY	PARKING REQ
<b>R-1 Single Family Residential</b>	20' 30' for garages	10' 5' for accessory buildings	20' 5' for accessory buildings	30' 20' for accessory buildings*	N/A	6,000 sq ft 7000 sq ft. for corner lot	7+ units per acre	2 on-site
<b>R-2 Medium Density Residential</b>	15' 25' for garages	10'	15'	30' 20' for accessory buildings*	N/A	6,000 sq ft 7000 sq ft for corner lot	14 units per acre	2 Per duplex unit; 1 per bedroom for MFR
<b>R-3 High Density Residential</b>	15' 25' for garages	5'	10'	40' 30' when abutting R-1 or R-2	N/A	6,000 sq ft 7000 sq ft for corner lot	28 units per acre	2 Per duplex unit; 1 per bedroom for MFR
<b>C-N Neighbor Comm</b>	10' 15' for second story	5' 10' for second story	10'	30' 20' for accessory buildings	40%	7000 sq ft	28 units per acre	2 Per duplex unit; 1 per bedroom for MFR
<b>C-1 Community Commercial</b>	10' 15' for second story	0' unless abutting an R-1, R-2, or R-3 parcel**	0' unless abutting an R-1, R-2, or R-3 parcel	50'	40%	6000 sq ft 7000 sq ft corner lot	28 units per acre	2 Per duplex unit; 1 per bedroom for MFR
<b>C-2 Heavy Commercial</b>	10' 15' for second	0' unless abutting an R-1, R-2, or	0' unless abutting an R-1, R-2, or	40' 20' for accessory	40%	6000 sq ft 7000 sq ft	28 units per acre	2 Per duplex unit;

	story	R-3 parcel	R-3 parcel	buildings		corner lot		1 per bedroom for MFR
<b>P-D Planned Develop</b>	To be determined in the review process	½ acre unless located in the downtown and fulfills other criteria	28 or more units per acre	Flexible				

**NOTES:**

1. \* 20' or the maximum height of the main building whichever is less
2. \*\* If abutting an R-1, R-2, or R-3 parcel, then the setback for that residential district applies
3. The B1 and B2 Airport Compatibility Zones list multiple story offices as "normally not acceptable." The B2 *Infill Policy* north of the airport limits buildings to 2-stories.
4. Various residential housing types are allowed or permitted in all of the above zoning districts
5. Parking requirements vary, but are generally less than nearby jurisdictions in an effort to reduce the size of parking lots and to discourage automobile use.
6. Deviation from lot coverage standards are available with discretionary review.

**Zoning and Housing Types:** The City's current zoning code allows for a variety of housing types throughout the City. For example, multiple family residential apartment units are permitted in all commercial zoning districts, and second residential units (granny units) are allowed in the Single Family Residential (R-1) zoning district without the need for a use permit.

Small family day care (6 or fewer children) and community care facilities are allowed in all residential zones and in the Community Commercial zoning district without a Use Permit. Large family day care (7 or more) and community care facilities are permitted in these districts with the securing of a Use Permit. The City code does not include any spacing or concentration restrictions.

The Planned Development (PD) zoning tool contained in the City Code allows for creative, well planned housing projects, and provides for the possible relaxation of typical development standards, as well as permitting unconventional housing types such as cooperative housing and school dormitories. This tool was used successfully during the past planning period to approve a compact, nicely designed infill low to moderate income housing development. The tool allowed for the reduction in parking, street and driveway widths, density, and yard setbacks. This Planned Development zoning remains an important tool in the City's toolbox for affordable housing projects.

The PD tool is an overlay zoning district that technically is a rezoning. For example, an affordable senior housing project applicant may propose to lay the PD zone over an existing R-3 (High Density Residential) zoning district to reduce parking requirements, relax yard setbacks, and reduce access roadway widths. The application requires review and a public hearing by the Planning Commission and a final review and action by the City Council. Affordable housing projects that successfully used this tool include the Cleveland Lane sweat equity project, Mulberry Street sweat equity project, and the Cottage Lane project.

**Fees and Development Review Process:** The City requires payment of different fees as a condition of development approval. These fees are lower than comparable market-rate fees for technical plan review tasks and for fees charged by other nearby jurisdictions. Discounted fees are levied for affordable housing projects.

**Table 22 – Planning Permit Fees**

<b>Planning Permit Fees</b>	<b>Regular</b>	<b>Affordable Housing</b>
Site Development Permit- - Major	100% cost recovery	Affordable Housing: 80% cost recovery; Special Needs Housing: 60% cost recovery
Site Development – Minor	\$450	Same
Use Permit Major	100% cost recovery	Affordable Housing: 80% cost recovery; Special Needs Housing: 60% cost recovery
Use Permit Minor	\$450	Same
Variance Major	100% cost recovery	Affordable Housing: 80% cost recovery; Special Needs Housing: 60% cost recovery
Variance Minor	\$225	Same
Subdivision Major	100% cost recovery	Affordable Housing: 80% cost recovery; Special Needs Housing: 60% cost recovery
Subdivision Minor	\$900	Affordable Housing: \$720 Special Needs Housing: \$540
Subdivision Exception	100% cost recovery	Affordable Housing: 80% cost recovery; Special Needs Housing: 60% cost recovery
Boundary Line Adjustment	\$450	Affordable Housing: \$360; Special Needs Housing: \$270
General Plan Amendment	100% cost recovery	Same
Annexation	100% cost recovery	Same
Rezoning	100% cost recovery	Same
Rezoning Planned Unit Development	100% cost recovery	Affordable Housing: 80% cost recovery; Special Needs Housing: 60% cost recovery

Environmental Impact Report (EIR)	Consultant cost plus 15% administration	Same
Specific Plan/Master Plan Review	\$1,800	Affordable Housing: 80% cost recovery; Special Needs Housing: 60% cost recovery
Development Impact Fees	None, except for a specific traffic impact fee associated with the development of the Airport Business Park mixed use shopping center.  Residential sewer hook-up fees vary depending upon how many bedrooms are proposed. The fee for a one bedroom home is \$9,820; two bedroom \$10,911; and a three bedroom is \$12,002. For each bedroom beyond 3, and for a bedroom addition to an existing home, the fee is \$1,091.	Developers of affordable housing projects may be eligible funds to help finance infrastructure improvements.

**Example Project:** The 32-unit Clara Court affordable apartment project, which received approximately \$350,000 in grants and low interest loans from the Ukiah Redevelopment Agency for property acquisition and pre-development funds, paid approximately \$450,000 in total fees (planning permit, building permit, water, sewer, public works, electrical, planning, and fire protection). This amounts to approximately \$14,000 per unit (does not include school district fees collected by the district). This amount appears reasonable when compared to other jurisdictions. For example, in unincorporated Mendocino County, the cost is approximately \$17,500 per unit (pages 3-20 and 3-21, 2010 Mendocino County General Plan Housing Element).

Fee Percentage of Development Cost: According to the issued building permit(s) for the Clara Court project, the total value/development costs for the project are \$2,917,944. The total City collected fees of \$450,000 equate to only 15.4 percent of the development costs for the project.

The City is also deferring the electrical, water, and sewer connection fees (\$413,284 of the \$450,000) until final inspection and the grant of occupancy. This will significantly contribute to project feasibility and achievement of affordable targets because it helps to meet construction loan underwriting requirements and reduces financing costs.

Additionally, in December, 2010, the City RDA provided an additional \$450,000 to the project to assist in clean-up of unanticipated contaminated soil.

## Development Review Process:

**Table 23 – Development Review Process**

<b>Project Type</b>	<b>Approving Body</b>	<b>Timeline</b>	<b>Comment</b>
Individual single family house	Staff	2 to 4 weeks	Plan check prior to issuance of building permit
Minor Subdivision	City Engineer	1 to 2 months	Parcel Map 1 to 3 months Final Map 1 to 2 months
Major Subdivision	Planning Commission and City Council	3 to 5 months	Subdivision Map 2 to 3 months Final Map 1 to 2 months
Duplex or triplex in a R-3 District	Staff	2 to 4 weeks	Staff review of site development plan
Multifamily housing with no subdivision	Planning Commission	2 to 3 months	Site Development Permit
Multifamily housing with major subdivision	Planning Commission	3 to 4 months	Site Development Permit and Subdivision Map
Mixed Residential Commercial Use (CUP)	Planning Commission	3 to 4 months	Project with no land division requires a Use Permit and Site Development Permit Review by the PC.
Planned Development Rezoning	Planning Commission and City Council	3 to 4 months	Requires a concept plan and a precise development plan.
CEQA Negative Declaration	Planning Commission	Varies	Processed jointly with project
CEQA EIR	Planning Commission	up to 12 months	Processed jointly with project.

**Site Development Permit (SDP):** The review of a Site Development Permit focuses on architecture, landscaping, parking, and other site design elements. The landscaping and parking standards are clear and concise and the Planning Commission has the authority and flexibility to reduce the requirement on a case-by-case basis. The architectural design findings are similarly concise and routinely shared with project applicants early in the pre-application discussions. The finding is not burdensome and allows for flexibility in the design of housing structures:

“There is sufficient variety, creativity, and articulation to the architecture and design of the structure(s) and grounds to avoid monotony and/or a box-like uninteresting external appearance.”

The Side Development Permit Review Process: Processing a typical Side Development Permit takes approximately 6-8 weeks and includes the following steps:

### **Step 1 - Filing an Application**

Applications are submitted to the City at the Planning and Community Development public information counter at the Ukiah Civic Center – 300 Seminary Avenue, Ukiah. While pre-application review (at no cost) is encouraged, it is not required.

## **Step 2 – Project Review Committee**

The project planner will schedule the project for a roundtable discussion between the applicants and various City Staff members to flush out issues and problems, and to provide the applicants with a preliminary determination regarding possible conditions that may be imposed on the project.

## **Step 3 – Application Completeness**

Within approximately 2 weeks after application submittal, the project planner will determine if enough information has been submitted to fully understand the proposed project. If enough information has been submitted, the application will be deemed “complete” for processing. If not, the project planner will send a detailed letter to the applicant indicating exactly what information is needed to fully understand the proposal.

## **Step 4 - Environmental Review**

Some Site Development Permit applications need a preliminary environmental review (Initial Study) by the project planner. The purpose of this review is to find out if the project will cause any adverse environmental impacts. You may be required to give us more information about traffic, noise, etc. After reviewing all the information, the City Environmental Coordinator will make an environmental determination.

## **Step 5 - Public Notice**

Once the project planner has completed an analysis of the proposal, and all issues have been resolved, a public notice is published in the local newspaper describing the proposal and when the required public hearing will be conducted. A public notice is also sent to all property owners within 300-feet of the project site, and the project planner will physically post/stake a notice on the subject parcel.

## **Step 6 – Public Hearing and Action**

The City Zoning Administrator or Planning Commission will conduct a public hearing, make findings, and take action on the project. If the project is approved, the Zoning Administrator or Planning Commission may impose conditions on the project. For information regarding the required findings that have to be made to approve the Site Development Permit project or the conditions of approval that may be placed on the project, contact the City Planning Staff at the number listed below.

**Use Permit:** The primary finding required to approve a Use Permit is that the housing project would not have a detrimental effect on the health, safety, and general welfare of the public. The Use Permit review process is the same as the Site Development Permit Review process.

**Planned Development Rezoning:** The Planned Development Rezoning tool has been the most successful tool for creating affordable housing in the City. As indicated, it provides flexibility with development standards such as lot sizes, yard setbacks, driveway widths, etc. Hundreds of affordable housing units have been constructed as a result of this tool, including two large “sweat-equity” home ownership projects.

While the process is discretionary and involves public hearings before the Planning Commission and City Council, it is clear and provides certainty to the community and developers. The certainty is provided to the community because this rezoning proposal/application includes an actual development plan rather than just changing the zoning classification. Certainty is provided to the developer because the pre-application review is intimate with staff and staff is readily available through-out the process. It is not uncommon for staff to meet with the developer of a Planned Development project many times during the course of review to discuss and resolve issues.

Moreover, the process is not time consuming and the cost is not restrictive given the City’s fee reduction for affordable housing projects. This is why the tool has been so successful in the City of Ukiah.

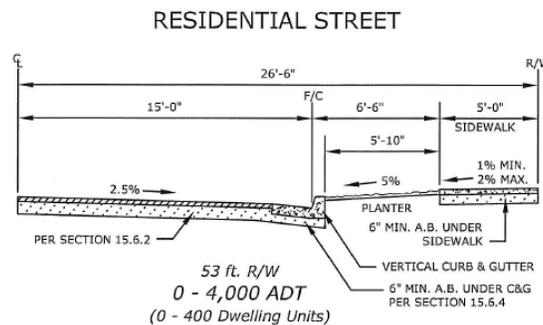

**Planned Development Rezoning Review Steps:** The review process for Planned Development projects takes approximately 3-4 months to complete.

1. Pre-application review. This is an optional step in the process that is free of charge, and provides the developer with an opportunity to meet with staff to discuss the proposal, identify issues, sound-board solutions, located infrastructure, and confirm the steps in the review process.
2. Application filing. The applicant meets with staff and files the application. If it is an affordable housing projects, the applicant pays reduced fees.
3. Application routing. The application is routed to various departments and agencies for review and comment.
4. Application completeness. Within approximately 2-weeks, staff determines if enough information has been submitted to fully understand the project.
5. Environmental Review. Within 30 days from determining the application to be complete for processing, staff makes a determination regarding compliance with the California Environmental Quality Act.
6. Planning Commission public hearing. Once environmental review is completed, the project is scheduled for a public hearing before the Planning Commission.
7. City Council public hearing. The City Council conducts a public hearing to consider the recommendation from the Planning Commission and to take final action on the project.

**On and Off-Site Improvement Requirements:** The City requires streets, curb, gutter and sidewalks, water and sewer connections, electrical connections and landscaping for all new construction, including affordable housing projects.

**Street Standards:** The City Department of Public Works maintains a *Standard Plans* document that provides housing developers with details and specifications for street, sidewalk, curb, gutter, wheel chair ramps, sewer, water, drains and street tree improvements. All the details and specifications are typical of a small rural city, and present no hardship or unreasonable requirement for housing developers.

The specification for a typical residential street, curbs and gutters, and sidewalks are typical of a small rural city, and have not resulted in a significant barrier to affordable housing projects:

**NOTES**

1. Typical street section to be used in new residential subdivisions.
2. ADT is Average Daily Traffic.
3. Rolled curb and gutter may be constructed at street elbows and cul-de-sacs if approved.
4. The planter width may only be reduced or the planter removed to meet residential housing densities or to conform to existing street right-of-way if approved.
5. The street section may be modified for infill development.

Water service connection fees are typical of a small rural City and have not resulted in a barrier to affordable housing projects. The City owns its own electrical utility and its electrical service connection fees are not only considered reasonable, but are in fact are less than those charged by the Pacific, Gas and Electric Company (PG&E), which provides electrical service outside the City limits.

The sewer connection fees charged by the City are identical to those charged by the Ukiah Valley Sanitation District which provides wastewater service to the unincorporated areas outside the City limits. The fees are considerably less than those charged by cities to the south in Sonoma County.

**Landscaping:** Affordable housing projects are required to landscape 20% of the project site, and this has not presented a significant barrier to past projects. The zoning code does allow a reduction to the amount of landscaping depending upon the size, scale, intensity, and location of the project.

**Traffic Level of Service:** Depending upon the number of units and location of a proposed project, including affordable housing proposals, a traffic study may be required. As part of the 2004 General Plan Housing Element update, the City amended its General Plan Circulation Element to relax the roadway level of service from a “C” to a “D” as an interim measure until the City completed a citywide traffic model and further revisions to its Circulation Element. This has removed a barrier to affordable housing development.

It is concluded that the City’s required on and off-site improvements do not present a significant barrier to the development of affordable housing projects. This is evident because of the recent project approvals for the Clara Court and Summercreek Village affordable housing projects, where on and off-site improvements were not issues and did not present barriers.

**What Affordable Housing Developers Can Expect:** Affordable housing developers can expect professionalism, cooperation, and a team approach from City Staff on issues such as property identification, constraints and opportunities analysis, potential funding assistance, reduced development processing fees, and expedited time frames for permit processing.

To assist developers, the City has produced a document entitled “What You Need to Know About Construction and Development.” It is provided free upon request and is posted on the City’s website.

The goal and mission of City Staff is to help shape an approvable project, and to provide certainty to the developer in terms of fees, standards, findings, and the entirety of the permit review process.

## **Military compatibility**

There are no Military bases in or near the City of Ukiah or Mendocino County. However, the City is within an SUA (Special Use Airspace) more specifically termed a Military Operations Area (MOA). An MOA is an area of airspace designated for military training activities and requires the City to notify the appropriate military office when it proposes to amend or adopt a new General Plan or when large development projects are proposed. A program has been added requiring these tasks to be to accomplished.

## **Crime prevention and environmental design (CPTED)**

CPTED is defined as “the proper design and effective use of the built environment that can lead to a reduction in the fear and incidence of crime and an improvement in the quality of life.” There are ten key principals and associated strategies communities should consider when applying the CEPTED framework to the design, development, redevelopment, and maintenance of buildings and community spaces:

1. **Natural Surveillance**— *the design and placement of physical features to maximize visibility and surveillance.* Keeping intruders easily observable by maximizing visibility.

Key strategies include the design, placement, and lighting of doors, windows, walkways, gathering areas, roadways, and structures. The objectives are to eliminate hiding places and increase the perception of human presence or supervision.

2. **Natural Access Management**— *the physical guidance of people and vehicles.* Designing streets, sidewalks, building entrances, and neighborhood gateways to clearly indicate public routes and discouraging access to private areas.

Key strategies include the use of real or perceived barriers such as fencing or plantings, and other way finding elements such as lighting, signage, and artwork. The objectives are to provide orientation and a pedestrian-friendly environment and to discourage would-be offenders by making noncompliance obvious.

3. **Territorial Reinforcement**— *the use of physical attributes to delineate space and express a positive sense of ownership.* Increased definition of private space to create a greater sense of ownership and territorial control of an area.

Key strategies include the use of art, signs, landscaping, and boundary treatments as well as the orientation and strategic placement of buildings. The objectives are to define borders, express ownership, and communicate a space is cared for and protected.

4. **Physical Maintenance**—*the repair, replacement, and general upkeep of a space, building, or area.*

Key strategies include the use of low-maintenance landscaping and architectural materials, trash collection and removal, and other programs to maintain a clean and orderly environment. The objective is to allow for the continued use of a space for its intended purpose.

5. **Order Maintenance**—*the attention to minor violations and reduction of opportunities for inappropriate behavior.*

Key strategies include posting rules and expectations, using graffiti- and vandalism-resistant materials, and imposing quick, fair, and consistent consequences for violations. The objectives are to foster safe, orderly, and predictable behaviors.

6. **Activity Support**—*the planning and placement of safe activities.*

Key strategies include sidewalk and street level activities, such as markets, fairs, and festivals, in key community areas. The objective is to increase the number of people using a space, thereby enhancing visibility, social comfort and control.

7. **Social Capital**—*the social trust, norms, and networks people draw upon to solve common problems, foster civic engagement, and discourage inappropriate behaviors.*

Key strategies include designated gathering areas, social events, community programs, and communication protocols or equipment. The objective is to encourage communication, trust, and collaboration among stakeholders and also with the governmental agencies that serve them.

8. **Land Use and Community Design**—*the distribution, location, and amount of land for various uses; their density and intensity; and the design elements, strategies, and overall character of a planning area.*

Key strategies include team training for professionals involved in planning and development activities, solicitation of community public safety concerns and collaboration in problem solving, and incorporation of CPTED principles into planning processes. The objectives are to create, or recreate, and manage built environments in a manner that includes considerations for public safety.

9. **Target Hardening**— *the making of potential targets resistant to criminal attack.* Using features such as window locks and dead bolts that prohibit entry or access. The City could naturally reduce crime by encouraging development projects to use these CPTED tools. Educating City staff on how CPTED principles can reduce crime and offering incentives to residential and commercial builders who incorporate CPTED principles into their project design could reduce crime and the overall need for policing in the City.

Key strategies include the reinforcement of entry and exit features, law enforcement or security presence, and security devices such as locks, alarms, and cameras. The objectives are to increase the efforts that offenders must expend and the risk of their being identified or apprehended in committing an offense.

10. **Natural Imperatives**—*ensuring access to necessary goods and services including natural light, clean air and water, healthy foods, physical activity, employment, and housing.*

Key strategies include pedestrian amenities, public parks, accessible transit systems, quality food sources, and education and employment opportunities. The objective is to promote healthy behaviors and reduce mental fatigue and associated risky behaviors by meeting the biological, social, and economic needs of the population.

A program has been added to require the use of CPTED when reviewing housing development projects.

## **Safety and high density housing management**

The Ukiah Police Department has participated in a program that brings law enforcement together with the owners and managers of high density housing complexes to devise strategies for keeping the facilities safe. While funding for the program remains uncertain, the Police leadership believe it represents the best approach to increasing safety and reducing police calls to high density apartment complexes.

## **Are there affordable housing units in the community that are at-risk of being converted to market rate units?**

There are affordable housing units throughout California which were built 30 years ago with federal low-interest mortgages from the U. S. Department of Housing and Urban Development with an agreement that the rents of these units be kept at a level affordable to low income

households. State Government Code §65863.10 requires owners of such projects to provide at least nine months notice of contract termination or prepayment of federal assistance to tenants and public agencies. State law requires an analysis cover a ten-year period, and be divided into two periods, coinciding with updates of the Housing Element. There are three general cases that can result in the conversion of publicly assisted units:

1. Prepayment of HUD Mortgages: Section 221(d)(3). Section 202 and Section 236: A Section 221(d)(3) is a privately owned project where the U. S. Department of Housing and Urban Development (HUD) provides either below market rate loans or a subsidy to the tenants. With Section 226 assistance, HUD provides financing to the owner to reduce the costs for tenants by paying most of the interest on a market rate mortgage. Additional rental subsidy may be provided to the tenant. Section 202 assistance provides a direct loan to non-profit organizations for project development and rent subsidy for low income tenants. Section 202 provides assistance for the development of units for physically handicapped, developmentally disabled, and chronically mentally ill residents.
2. Opt-outs and expirations of project based Section 8 contracts: Section 8 is a federally funded program that provides subsidies to the owner of a pre-qualified project for the difference between the tenant's ability to pay and the contract rent. Opt-outs occur when the owner of the project decides to opt-out of the contract with HUD by pre-paying the remainder of the mortgage. Usually, the likelihood of opt-outs increases as the market rents exceed contract rents.
3. Other: Expiration of the low income use period of various financing sources, such as the Low-Income Housing Tax Credit (LIHTC), Bond financing, density bonuses, California Housing Finance Agency (CFHA), Community Development Block Grants (CDBG) and HOME funds and redevelopment funds. Generally, bond-financing properties expire according to a qualified project period or when the bonds mature. Former properties funded with Redevelopment Agency funds generally require a minimum affordability term of 30 years.

There is one subsidized housing development that was at risk of conversion to market rate. However, according to ownership, Ukiah Autumn Leaves, a non-profit tax exempt corporation has extended its Section 8 project based voucher financing. The result is the project will not convert to market rate for at least an additional 10 years.

While the need is limited, this Housing Element includes a Program calling for the establishment of an *At-Risk Unit Program* to address the issue of at-risk unit loss.

**Table 24 – Multi-Family Projects on the Market in 2013**

<b>Name/Address</b>	<b>Asking Price</b>	<b>Units</b>	<b>Price/Unit</b>	<b>Year on Market</b>
740 El Rio Street	\$249,000	2	\$124,500	2013

Mason Street	\$895,000	8	\$111,875	2013
State Street	\$1,150,000	3	\$383,333	2013
<b>Average</b>			<b>\$206,569</b>	

Source: www.loopnet.com

The City will contact qualified non-profit organizations or other agencies and explore opportunities to assist and facilitate the transfer ownership of "at risk" units. Potential funding sources may include:

- The City of Ukiah General Fund
- State Department of Housing and Community Development
- Mendocino County Housing Authority
- Burbank Housing Development Corporation

## **A Note on Greenhouse Gas Emissions and Global Warming**

The greenhouse effect is a natural phenomenon whereby the Earth's heat is trapped in the atmosphere by certain gases. Greenhouse gases thus contribute to maintaining a surface temperature on Earth favorable to life. Industrialization and the population explosion that have occurred over the past 200 years have been accompanied by a substantial increase in the use of fossil fuels such as coal, oil and natural gas, thus leading to an equally considerable increase in greenhouse gas emissions in the atmosphere. The additional greenhouse gas emissions have in turn exacerbated the greenhouse effect, which appears to be the cause of the increase in the temperature of the Earth's surface and the lower layers of its atmosphere.

According to California Assembly Bill 32, "Global warming poses a serious threat to the economic well-being, public health, natural resources, and the environment of California. The potential adverse impacts of global warming include the exacerbation of air quality problems, a reduction in the quality and supply of water to the state from the Sierra snowpack, a rise in sea levels resulting in the displacement of thousands of coastal businesses and residences, damage to marine ecosystems and the natural environment, and an increase in the incidences of infectious diseases, asthma, and other human health-related problems."

The Legislature also found that Global warming "will have detrimental effects on some of California's largest industries, including agriculture, wine, tourism, skiing, recreational and commercial fishing, and forestry. It will also increase the strain on electricity supplies necessary to meet the demand for summer air-conditioning in the hottest parts of the state."

**What Are the Sources of Greenhouse Gases?** In the U.S., our greenhouse gas emissions come mostly from energy use and fossil fuel combustion (automobiles). These are driven largely by automobile use, the current manner of economic growth, fuel used for electricity generation, and weather patterns affecting heating and cooling needs. Energy-related carbon dioxide emissions, resulting from petroleum and natural gas, represent 82 percent of total U.S. human-made greenhouse gas emissions. Transportation causes 38% of greenhouse gas emissions in California.

**Land Use and Greenhouse Gas:** Over the past 50 years, urban sprawl in the immediate vicinity of Cities has increased dramatically. Locally, urban development has occurred in an unstructured manner outside the Ukiah City limits.

These resulting areas are characterized by low-density; have increased distances between residential areas and workplaces, businesses and services; are ill suited to modes of transportation other than the automobile; have relatively less attractive central areas; and many have vacant lots and underused or abandoned buildings.

**Increase in automobile trips:** Sprawling low density urban development generates automobile trips that lead to substantial greenhouse gas emissions and, more specifically, carbon dioxide (CO<sub>2</sub>) emissions. Indeed, the automobile is the preferred if not the only possible choice for transportation. As public transit choices, walking and cycling are often unavailable, uneconomical, or inaccessible. Moreover, in urban areas, an increase in the use of the automobile is accompanied by an increase in the number of vehicle trips and in the distances traveled.

**Conclusion:** In response to greenhouse gas emissions and global warming, as well as other basic planning principals, a Guiding Principle for future housing development is to promote green and sustainable building, water conservation, energy efficiency, pedestrian orientation, and careful infill development.

Implementing programs are included to fulfil this Guiding Principle.

## **Opportunities for Energy and Water Conservation**

There are positive opportunities for fulfilling the Guiding Principle to increase energy and water conservation and efficiency in housing developments.

**Energy Conservation:** The City is currently operating a housing rehabilitation program with the use of HOME grant funds. This program requires recipients to focus on energy efficiency measures and to date nearly \$400,000 has been utilized to improve existing housing units. The City is poised to continue this program if successful in securing additional HOME grant funds in the future.

The City also owns its own electric utility and offers a number of energy conservation incentives and rebates for residential development. These include:

- Energy Efficiency & Solar Program
- Energy Efficiency Air Conditioning and Heat Pump Rebate Program
- Weatherization Rebate Program
- Energy Efficiency Water Heater Rebate Program
- Energy Efficiency Appliance Rebate Program
- Residential Lighting Program

The programs include higher incentive rebate amounts for lower income households.

The City is committed to continuing these programs and not only encouraging energy conservation, but taking the steps to really making it happen.

**Water Conservation:** The City has been proactive in water conservation matters and offers both indoor and outdoor water conservation tips on its website. The Planning Commission has consistently raised water conservation issues when reviewing proposed development projects and routinely requires native drought tolerant plant species in landscaping plans.

The City is committed to continuing these approaches to water conservation.

## Housing Goals

**Table 25 - 2009-2014 and 2014-2019 Housing Goals Comparison**

2009 -14 Housing Goals	2014 - 2019 Housing Goals
<b>Goal H-1:</b> Conserve, rehabilitate, and improve the existing housing stock to provide adequate, safe, energy efficient, and decent housing for all Ukiah residents.	<b>Goal H-1:</b> Conserve, rehabilitate, and improve the existing housing stock to provide adequate, safe, energy efficient, and decent housing for all Ukiah residents.
<b>Goal H-2:</b> Provide housing for all economic segments of the community.	<b>Goal H-2:</b> Provide housing for all economic segments of the community.
<b>Goal H-3:</b> Expand affordable housing opportunities for persons with special housing needs such as the homeless, mentally ill, physically disabled, households with very low to moderate incomes, senior citizens, farm workers, female heads of households with children under 18 years old, and first time homebuyers.	<b>Goal H-3:</b> Expand affordable housing opportunities for persons with special housing needs such as the homeless, mentally ill, physically disabled, households with very low and low to moderate incomes, senior citizens, farm workers, female heads of households with children under 18 years old, first time homebuyers and the developmentally disabled.
<b>Goal H-4:</b> Promote well planned and designed housing opportunities for all persons regardless of race, gender, age, sexual orientation, marital status or national origin.	<b>Goal H-4:</b> Promote well planned and designed housing opportunities for all persons regardless of race, gender, age, sexual orientation, marital status or national origin.
<b>Goal H-5:</b> Use land effectively to meet housing needs and to implement smart growth, green building, and sustainable development policies with a focus on infill development.	<b>Goal H-5:</b> Use land effectively to meet housing needs and to implement smart growth, green building, and sustainable development policies with a focus on infill development.
<b>Goal H-6:</b> Maintain a collaborative working relationship with all groups and organizations dedicated to providing affordable housing in the community, and ensure broad public participation in the development of housing goals and policies.	<b>Goal H-6:</b> Maintain a collaborative working relationship with all groups and organizations dedicated to providing affordable housing in the community, and ensure broad public participation in the development of housing goals and policies.

## Housing Goals and Policies

## **What do we want to Happen?**

### **Goal H-1**

"We want to conserve, rehabilitate, and improve the existing housing stock to provide adequate, safe, energy efficient, and decent housing for all Ukiah residents."

### **Policies to Support Goal H-1**

- H-1.1:** Promote and encourage the rehabilitation of existing residential units.
- H-1.2:** Promote the use of sustainable and/or renewable materials and energy technologies (such as solar and wind) in rehabilitated housing when possible.
- H-1.3** Preserve at-risk housing units.
- H-1.4** Improve the safety for residents at high density apartment complexes.

### **Implementing Tasks**

#### *How Results Will be Achieved*

- H-1.a: By the end of 2015, develop and implement a residential rehabilitation program with an emphasis on improving safety, comfort and energy efficiency.
- H-1.b: Work with the City Public Utility Department to potentially expand the City's Energy Efficiency Public Benefits Fund.
- H-1.c: Provide informational materials to the public regarding sustainable and green building materials.
- H-1.d: Consider measures that would preserve/conserve existing mobile home parks, such as a mobile home rehabilitation program, conversion to ownership program, infrastructure improvement incentives, rent stabilization, etc.
- H-1.e Develop an At-Risk Units Program: Maintain an inventory of at-risk affordable housing units and work with property owners and non-profit affordable housing organizations to preserve these units by identifying and seeking funds from Federal, State, and local agencies to preserve the units.
- H-1.f Work closely with the Ukiah Police Department and local apartment complex managers to keep housing safe. Consider funding mechanisms for increasing public safety.
- H-1.g Refer all proposed General Plan amendments to the appropriate military offices for review and comment. Revise the planning permit application form to include this step of referral.

### **Tracking Progress**

#### *How Success Will be Measured*

Measuring success is the key to knowing if the goal of Conserve, rehabilitate, and improve the existing housing stock is being pursued and if progress is being made. To track progress, the annual General Plan Housing Element Progress Report must ask and answer the following questions:

- What progress has been made to Conserve, rehabilitate, and improve the existing housing stock?
- What specific tasks are planned for the next year that will increase success?
  - Has internal consistency with other Elements of the General Plan been achieved and maintained?

### ***Why is this Goal important?***

The 2008 Housing Conditions Survey revealed that 77% of the local housing stock was more 25 years old, and that 37% or 1,445 units needed moderate repairs, 0.9% need substantial repairs, or and (23.4%) minor repairs. Additionally, the survey found that 567 residential units needed window replacement or repair, and only 44% of the units showed evidence of window insulation. In 2014, this housing stock has aged further.

A decent place to live is basic to human dignity and helps define a community's quality of life. The current housing situation in Ukiah does not provide enough decent housing for extremely low income, very low income, low income, and persons in special need. It restricts opportunity for seniors and young adults to remain in the community. It limits the ability of teachers and other public service employees, people who work in local businesses and people who provide child care and elder care to find housing so that they can live in the community where they work.

### ***How do the Goal and Policies Relate to the Guiding Principles?***

One of the Guiding Principles is to promote and support green and sustainable building, increase energy efficiency, and respond to climate change. This goal and associated policies correspond directly to this Guiding Principle.

## **Goal H-2**

"We want to provide housing for all economic segments of the community."

## **Policies to Support Goal H-2**

**H-2.1:** Ensure that adequate residentially designated land is available to accommodate the City's share of the Regional Housing Need.

**H-2.2:** Continue to allow placement of manufactured housing units on permanent foundations in residential zoning districts.

**H-2.3:** Encourage new condominium development to provide housing for persons desiring to "scale-down" their housing circumstances and to provide broader opportunities for first-time home buyers and moderate income persons.

**H-2.4:** Continue to consider and explore HOME grant, CDBG and other funding sources to facilitate housing affordable to extremely low, very low and low income households.

**H-2.5:** Continue to support the Ukiah Homeless Service Planning Group and homeless support services in all ways feasible.

## **Implementing Tasks** ***How Results Will be Achieved***

**H-2.a:** Provide copies of the inventory of vacant and underdeveloped land for public distribution.

**H-2.b:** Work with public transit providers and developers to encourage housing development located close to public transit facilities.

~~**H-2.c:** Provide reduced planning permit application fees for residential second dwelling units.~~

**H-2.d:** Review the zoning code and determine if any constraints to condominium developments and cooperative living projects exist, and if so, eliminate the constraints.

**H-2.e:** As Staff and resources allow, assist the Ukiah Homeless Services Planning Group in all ways possible.

**H-2.f:** The zoning code shall be amended to allow homeless facilities without the requirement for a Use Permit in the M Manufacturing zoning district. The zoning code shall require a Site Development Permit and facility management plan, and reasonable site development standards for homeless facilities, pursuant to California Government Code Section 65583.

**H-2.g:** Do not permit the conversion of rental units to condominium units unless the City's amount of rental units is sufficiently adequate.

**H-2.h:** Do not permit the conversion of single family residential homes to professional offices unless the City's amount of residential units is sufficiently adequate.

**H-2.i:** Adopt an Inclusionary Housing Ordinance by 2017 that requires below-market rate housing to be included as part of residential projects as follows:

1. 20 percent of the units in a rental housing project of five or more units shall be

affordable to very low and low-income households.

2. 20 percent of the units in a for-sale project of five or more units shall be affordable to very low to moderate-income households.
3. All housing projects involving 2 to 4 units shall pay a housing impact fee if established by the City.
4. Alternative methods of meeting the intent of the inclusionary requirements such as the payment of an in-lieu fee deposited in the Housing Fund, or providing land for the construction of affordable units may be permitted under certain circumstances.
5. Inclusionary units shall be constructed, rather than in-lieu fees being paid for larger housing developments. The threshold for this requirement shall be established in the Zoning Ordinance.
6. The amount of in-lieu fees shall be established by a resolution of the City Council and bear a relationship to the difference between the sales price between market-rate versus affordable housing units.
7. The allocation of inclusionary units among the income categories shall resemble the proportion of extremely low, very-low, low, and moderate income units identified in the Regional Housing Needs Determination to the maximum feasible extent.

**H-2.j:** Adopt the following minimum standards for inclusionary housing units:

1. The exterior appearance of inclusionary units shall not be different than for other units in the housing development of which they are a part; and
2. Inclusionary units shall be dispersed or distributed throughout the development rather than being concentrated in one portion of the development.

**H-2.k:** Prepare a Nexus Study by 2017 to determine if a nexus can be established requiring the developers of large residential and commercial projects to construct needed affordable housing units on site or in another appropriately zoned location near the place of employment and/or pay a housing impact fee. If a nexus can be established, adopt the affordable housing requirement or housing impact fee. The Nexus Study shall include an analysis of housing impacts on public safety and the possible development of a Public Safety Impact fee for certain types of development.

**H-2.l:** Identify and meet with nonprofit builders who specialize in building housing for extremely low-income households. This effort is designed to build a long-term partnership in development, gain access to specialized funding sources, identify the range of local resources and assistance needed to facilitate the development of housing for extremely low-income households, and promote a variety of housing types, including higher density, multifamily supportive, single room occupancy and shared housing.

**H-2.m:** Work in conjunction with other agencies to jointly develop and implement a program that is designed to address the needs of the extremely low income households in the City. At least annually and on an on-going basis contact agencies and developers to facilitate implementing the program. Actions to be considered for inclusion in the program include prioritizing City/RDA funding, supporting grant and other applications for funding, and exploring

housing types and construction methods to promote housing for ELI citizens.

**H-2.n:** Amend the zoning ordinance to be consistent with Senate Bill 2. All transitional and supportive housing shall be considered a residential use and only those restrictions that apply to other residential uses of the same type (single family residential, duplex, multi-family, etc.) shall be imposed.

**H-2.o:** Post the sites inventory map and housing development in commercial zones information on the City’s website and prepare hard-copy informational handout material for property owners and developers.

**H-2.p:** Within 1-year of adoption of the Housing Element, conduct a roundtable meeting with non-profit housing sponsors and developers to educate and share information about vacant and underutilized sites, the planned development tool, the lot consolidation process, and incentives offered by the City.

**H-2.q:** To ensure adequate sites are available throughout the planning period to meet the City’s RHNA, the City will continue to annually update an inventory that details the amount, type, and size of vacant and underutilized parcels to assist developers in identifying land suitable for residential development and that also details the number of extremely low-, very low-, low-, and moderate-income units constructed annually. If the inventory indicates a shortage of available sites, the City shall rezone sufficient sites to accommodate the City’s RHNA.

The City has identified residential capacity within the mixed use zone to accommodate 284 units of the City’s RHNA for lower-income households. To ensure sufficient residential capacity is maintained within this zone to accommodate the identified need of 284 units, the City will develop and implement a formal ongoing (project-by-project) evaluation procedure pursuant to Government Code Section 56863. Should an approval of commercial development result in a reduction of capacity within mixed use zones below the residential capacity needed to accommodate the remaining need for lower-income households, the City will identify and zone sufficient sites to accommodate the shortfall on land zones exclusively for residential multifamily use allowing at least 16 du/acre.

**H-2.r:** Facilitate the consolidation of smaller, multi-family parcels by 1) publicizing the underutilized sites inventory on the City’s website, and 2) providing technical assistance to property owners and developers in support of lot consolidation. To encourage development of quality housing at prices lower income households can afford on smaller, multi-family parcels, the City will meet with non-profit sponsors and developers to promote strategies and the creation of lot consolidation incentives.

### **Tracking Progress**

#### ***How Success Will be Measured***

Measuring success is the key to knowing if the goal of providing housing for all economic segments of the community is being pursued and if progress is being made. To track progress, the annual General Plan Housing Element Progress Report must ask and answer the following questions:

- What progress has been made to housing for all economic segments of the community? What specific tasks have been accomplished?
- What specific tasks are planned for the next year that will increase success?

- Has internal consistency with other Elements of the General Plan been achieved and maintained?

***Why are this Goal and these Policies important?***

This Goal and its associated policies are important because they ensure an ongoing effort to provide clean and safe shelter to all citizens in need.

***How do the Goal and Policies Relate to the Guiding Principles?***

This goal and its associated policies relate directly to Guiding Principal number 1.

**Goal H-3**

“We want to expand affordable housing opportunities for persons with special housing needs such as the elderly, homeless, mentally ill, physically disabled, households with very low to moderate incomes, senior citizens, Female heads of households with children under 18 years old, and first time homebuyers.”

**Policies to Support Goal H-3**

**H-3.1:** Establish working relationships with local groups and organizations that provide special needs housing.

**H-3.2:** As Staff resources allow, be aggressive in pursuing State and Federal funding for very low, low and moderate income housing developments, particularly for those with special needs such as senior citizens.

**H-3.3:** Allow senior housing projects to be developed with parking requirements less stringent than those specified in the Zoning Ordinance, where found to be consistent with maintaining the character of the surrounding neighbourhood.

**H-3.4:** Provide density bonuses to projects that provide a required percentage of total units affordable to very-low and low-income households and for units meeting the special housing needs identified in this Element.

**H-3.5:** Identify and support programs that address the housing needs of special needs groups and work with local organizations that can address their housing needs.

**H-3.6:** Utilize the housing rehabilitation program to fund the construction of renovations and improvements that improve the accessibility to housing for seniors and persons with disabilities and developmentally disabled .

**H-3.7:** Encourage affordable housing for first time homebuyers, and young families.

### **Implementing Tasks**

#### ***How Results Will be Achieved***

**H-3.a:** Special Needs Rental Housing: Support applications to State and federal agencies such as HCD, State Treasurer's Office, HUD and USDA for affordable rental housing financing to provide shelter for very low-income families and special needs households.

**H-3.b:** Increase housing opportunities for persons with disabilities consistent with the fair housing and disability laws, and encourage physical access to and within residential units and areas during the development review process.

**H-3.c:** Review the zoning code and consider eliminating regulatory constraints to special needs housing projects.

**H-3.d:** Continue to support and assist farmworker housing advocates by providing technical assistance with development applications; lower planning application fees for affordable housing projects, and identifying potential sites for farm worker housing.

**H-3.e:** Amend the zoning code to define and allow Single Room Occupancy (SRO) developments in the Medium Density (R-2) and High Density (R-3) zoning districts.

### **Tracking Progress**

#### ***How Success Will be Measured***

Measuring success is the key to knowing if the goal of expanding affordable housing opportunities for persons with special housing needs is being pursued and if progress is being made. To track progress, the annual General Plan Housing Element Progress Report must ask and answer the following questions:

- What progress has been made to expand affordable housing opportunities for persons with special housing needs? What specific tasks have been accomplished?
- What specific tasks are planned for the next year that will increase success?
- Has internal consistency with other Elements of the General Plan been achieved and maintained?

### ***Why are this Goal and these Policies important?***

This goal and its associated policies are important because one of the important identified housing needs in the City of Ukiah is clean and safe housing for citizens with special needs.

***How do the Goal and Policies Relate to the Guiding Principles?***

This goal and its associated policies relate directly to Guiding Principal number 1.

<b>Goal H-4</b>
“We want to promote well planned and designed housing opportunities for all persons regardless of race, gender, age, sexual orientation, marital status or national origin.”
<b>Policies to Support Goal H-4</b>
<b>H-4.1:</b> Continue to promote non-discrimination in housing in Ukiah. <b>H-4.2:</b> Work with local housing providers to understand local discrimination issues and what steps can be taken to resolve those issues.
<b>Implementing Tasks</b> <b><i>How Results Will be Achieved</i></b>
<b>H-4.a:</b> Continue to refer housing discrimination complaints to Legal Services of Northern California, State Fair Employment and Housing Commission, and the U.S. Department of Housing and Urban Development (HUD). <b>H-4.b:</b> Distribute housing discrimination public information and make it available at the Ukiah Civic Center and on the City’s website.
<b>Tracking Progress</b> <b><i>How Success Will be Measured</i></b>
Measuring success is the key to knowing if the goal of promoting well planned and designed housing opportunities for all persons is being pursued and if progress is being made. To track progress, the annual General Plan Housing Element Progress Report must ask and answer the following questions: <ul style="list-style-type: none"><li>• What progress has been made to expand affordable housing opportunities for persons with special housing needs? What specific tasks have been accomplished?</li><li>• What specific tasks are planned for the next year that will increase success?</li><li>• Has internal consistency with other Elements of the General Plan been achieved and maintained?</li></ul>

***Why are this Goal and these Policies important?***

This goal and its associated policies are important because in the City of Ukiah housing is a right not a privilege, and clean and decent housing must be available to all citizens.

***How do the Goal and Policies Relate to the Guiding Principles?***

This goal and its associated policies relate directly to Guiding Principal number 1.

<p><b>Goal H-5</b></p> <p>“We want to use land effectively to meet housing needs and to implement smart growth, green building, and sustainable development policies with a focus on infill development.”</p>
<p><b>Policies to Support Goal H-5</b></p> <p><b>H-5.1:</b> <u>Housing Design</u>: Assure that new housing is well-designed to enhance Ukiah’s neighborhoods and the community as a whole.</p> <p><b>H-5.2:</b> <u>Housing Design</u>: Support and encourage affordable housing projects that use sustainable and green building design and techniques.</p> <p><b>H-5.3:</b> <u>Innovative Site Design</u>: Support and encourage compact infill development that provides extremely low, very low, low or moderate income level housing that is safe, liveable.</p> <p><b>H-5.4:</b> <u>Mixed Use</u>: Encourage the development of mixed residential and commercial uses in the commercial zoning districts where the viability of the commercial activities would not be adversely affected.</p> <p><b>H-5.5:</b> <u>Live/Work Developments</u>. Encourage live/work housing developments particularly in the Downtown. Live/work units provide local workforce affordable housing, generate additional economic activity in the community, and improve the jobs/housing balance. Encourage opportunities for live/work developments where housing can be provided for workers on-site or caretaker or other types of housing can be provided in appropriate locations.</p> <p><b>H-5.6:</b> <u>Infill Development</u>. Support careful well-designed infill housing development in areas currently served by City services.</p> <p><b>H-5.7:</b> <u>Sustainable Development</u>. Encourage and support sustainable site planning and development.</p>
<p><b>Implementing Tasks</b></p> <p><b><i>How Results Will be Achieved</i></b></p> <p><b>H-5.a:</b> Apply the CEQA Infill Exemption when possible and perform expedited review for well designed, compact projects using green and sustainable design and building techniques.</p> <p><b>H-5.c:</b> Prepare and present a green building/sustainable development incentive tool(s) for consideration that could include expedited permit processing, density bonuses and relief from</p>

parking and other zoning requirements.

**H-5.d:** Green Building Codes: Consider Amending the building and zoning codes to identify and remove constraints to green-building, resource conservation, and alternative energy generation and establish green building and sustainable practice requirements for new developments, remodels and retrofits. Topics to be included are: Green building materials and practices, Passive solar design and siting, Energy efficient heating and cooling technology, Alternative water storage, wastewater treatment and reclamation, and storm-water management systems

**H-5.e:** Continue to administer the solar and energy efficiency rebate programs.

**H-5.f:** Assist developers and housing development agencies in incorporating green building, energy conservation, and alternative energy generation into their projects by providing information about resources and links to local organizations such as local renewable energy system designers and installers, rebates, energy-rating systems, and funding, on the Housing Resources website.

**H-5.g:** Promote energy and water conservation education programs that address steps to energy and water efficiency, benefits of weatherization and weatherization assistance programs, and information of onsite renewable energy generation technologies and financing options.

**H-5.h:** Promote stormwater management systems for mutli-family housing developments that have multiple benefits such as bio-swales to reduce downstream flooding, contamination of streams and rivers, fire hazard, and irrigation needs and to distribute stormwater and recharge groundwater.

**H-5.i:** Reduce electricity and natural gas demands by promoting the use of renewable energy technologies in residential and mixed-use projects. Strongly promote solar energy generation, use of solar water heaters, and passive solar design in new housing and, especially, multi-family housing both prior to and during project review.

**H-5.j:** Work with developers to create residential neighborhoods with mixed housing densities, types, and housing affordability levels that promote human interaction, neighborhood-scale services and facilities, safety, and connectivity to schools, neighborhoods, and commerce.

### **Tracking Progress** ***How Success Will be Measured***

Measuring success is the key to determining if land is being used effectively to meet housing needs and to implement smart growth, green building, and sustainable development policies, and if progress is being made. To track progress, the annual General Plan Housing Element Progress Report must ask and answer the following questions:

- What progress has been made to determining if land is being used effectively to meet housing needs and to implement smart growth, green building, and sustainable development policies,? What specific tasks have been accomplished?
- What specific tasks are planned for the next year that will increase success?

- Has internal consistency with other Elements of the General Plan been achieved and maintained?

***Why are this Goal and these Policies important?***

The goal and its associated policies are important because the City recognizes that the way in which housing is designed and constructed, and where it's constructed can adversely impact neighborhoods, the City, the region, the state, and ultimately the health of the planet. We want progressive, healthy, and safe housing for all residents.

***How do the Goal and Policies Relate to the Guiding Principles?***

This goal and its policies directly relate to Guiding Principle No. 4

<p><b>Goal H-6</b></p> <p>“We want to maintain a collaborative working relationship with all groups and organizations dedicated to providing affordable housing in the community, and ensure broad public participation in the development of housing goals and policies.”</p>
<p><b>Policies to Support Goal H-6</b></p> <p><b>H-6.1:</b> Continue to encourage and facilitate public participation in the formulation and review of the City's housing and development policies.</p> <p><b>H-6.2:</b> Assume a Leadership Role in the development of all types of needed housing in the community.</p>
<p><b>Implementing Tasks</b> <b><i>How Results Will be Achieved</i></b></p> <p><b>H-6.b:</b> Develop a Housing Resources webpage that may be used to facilitate the development and improvement of affordable housing. Included on the webpage could be items such as funding resources, affordable housing development agencies and developers, energy conservation and green-building resources and services.</p> <p><b>H-6.c:</b> Conduct periodic meetings with developers, non-profit housing development agencies, the Ukiah Police Department and others to identify constraints to development of affordable housing and use the information gained to consider zoning code amendments.</p>
<p><b>Tracking Progress</b> <b><i>How Success Will be Measured</i></b></p> <p>Measuring success is the key to determining if a collaborative working relationship with all groups and organizations is being maintained and if broad public participation is occurring. To track progress, the annual General Plan Housing Element Progress Report must ask and answer the</p>

following questions:

- What specific tasks are planned for the next year that will increase success?
- Has internal consistency with other Elements of the General Plan been achieved and maintained?

***Why are this Goal and these Policies important?***

This goal and its associated policies are important because communication and relationship building in the community is essential to understanding and successfully addressing the true housing needs.

***How do the Goal and Policies Relate to the Guiding Principles?***

This goal and its policies are fundamental to all the Guiding Principles.

**Five Year Quantified Objectives**

	<b>Extremely low</b>	<b>Very Low</b>	<b>Low</b>	<b>Moderate</b>	<b>Above Moderate</b>
<b>Construction</b>	9	11	7	7	20
<b>Rehabilitation</b>	15	5	5	0	0
<b>Conservation Preservation</b>	15	15	15	0	0
<b>TOTAL</b>	39	31	27	7	20

Construction: Construction of housing and housing starts of all types has slumped dramatically over the past several years. However, the City is working with a number of local housing developers to potentially create new senior and student housing opportunities.

Rehabilitation: The City is currently administering a housing/sewer lateral testing and rehabilitation program using \$500,000 of HOME grant funds. The eligible recipients extremely low, very low and low income property owners. It is anticipated that the average sewer lateral rehabilitation project will utilized approximately \$20,000 in funds, so that the City expects to complete a total 25 projects with the currently available funding.

Conservation/Preservation: Implementation measures are included to preserve and conserve existing residential units. Measure H-1.d calls directs the City to consider steps to preserve and conserve the existing 462 affordable mobile home units that house a significant number of extremely low income seniors. Such steps could potentially include a specific rehabilitation program for mobile home units. The 462 mobile home units were surveyed in 2009 and it was discovered that the majority of the 135 survey responses received were from senior tenants in the extremely low and very low income category. These are the units that are targeted for preservation/conservation.

**NOTE:**

Extremely Low 1-person household: \$11,250  
Very Low 1-person household: \$19,550  
Low 1-person household: \$31,250  
Moderate 1-person household: \$39,050

## Annual Reporting

California Government Code Section 65400 requires each city and planning agency to prepare an annual report on the status of the General Plan housing element and its progress with implementation. The annual reports are required to contain the following information:

1. A cover sheet with the name and mailing address of the reporting local government, the name, phone, fax and email numbers for the contact person, and the calendar year of the reporting period.
2. The following data for assessing progress in meeting the local government's regional housing needs allocation ("RHNA"):
3. Total allocation of housing units for the RHNA planning period and allocation by household income levels (i.e., very low, low, moderate, above moderate).
4. Number of permits for new residential units actually issued by the local government for each year of the RHNA planning period by household income level (i.e., very low, low, moderate, above moderate).
5. Total number of permitted units by household income level, total number of permitted units issued by year, the unfulfilled regional housing need allocation by household income level, and the total remaining unfulfilled RHNA.
6. For each housing development affordable to moderate- or lower-income households including mixed-income multifamily projects for which building permits were issued during the reporting period, the following information:
  - Identifying information for each project (e.g., address, intersection, or assessor's parcel number).
  - Unit category (i.e., single family, 2-4 units, 5 or more units, second-unit, mobilehome).
  - Tenure of the unit(s) (i.e., owner or renter), where apparent at time of project application.
  - Total number of units affordable to each of the following household income groups at initial occupancy: very low-income, low-income, moderate-income and above moderate-income when included as part of a mixed-income multifamily development.
  - Monetary/financing programs used to achieve affordability (e.g., state, federal, or local financial assistance, and including tax credits and bond financing).

- Non-monetary programs used to achieve affordability and utilizing some form of deed restrictions or covenants running with the land (e.g., density bonus, inclusionary zoning).
  - Any other methods used to achieve affordability at initial occupancy and including an explanation of how the affordability of the units was determined. For units that are affordable to lower- or moderate-income households without direct governmental assistance, the report shall include the initial projected sales price or rent of the unit, and the maximum qualifying household income levels applicable at the time of initial sale or rent as determined pursuant to Health and Safety Code sections 50052.5(b) and 50053(b) and California Code of Regulations, Title 25, Division 1, Chapter 6.5, Sections 6918 and 6920
7. Report the total number of units affordable to above moderate-income households for which building permits were issued during the reporting period by unit category (i.e., single family, 2-4 units, 5 or more units, second-unit, and mobilehome).
  8. For each program identified in the housing element pursuant to the requirement of subdivision (c) of Government Code 65583, the following information:
    - Name of the program.
    - Objective of the program as set forth in the housing element.
    - Deadline for achieving the objective as set forth in the housing element.
    - Status of program implementation as of the end of the annual reporting period listing dates of specific milestones or accomplishments, and quantified to the extent applicable and possible (e.g., 25 acres rezoned to R-4 on June 1st).
  9. Notwithstanding the foregoing, for a city or county which has issued permits for 1,500 or more multifamily units in the reporting period, the following reporting requirements apply:
    - The city, county, or city and county is not required to report the information required by section (c) above on a project-by-project basis for projects of less than 25 units, but may report the information as summary data for the reporting period.

Information related to affordability on the units in projects of less than 25 units may be provided based on information other than building permit information. However, if the information is not based on building permits, the jurisdiction must provide an explanation as to how these units were determined to be assigned to the reporting period. Upon request by the Department, the city or city and county shall provide back-up documentation for the information provided.

The City will review its annual reports with the Planning Commission and City Council and will submit them to the State Department of Housing and Community Development.

## Consistency with Other General Plan Elements

The Draft General Plan Housing Element Update has been guided by the Vision Statement and goals and polices of the existing General Plan. The General Plan Vision Statement includes the following:

We Envision.....development that provides a mix of housing types and process.”

The Draft updated Housing Element fulfils this vision.

Preliminary review of the goals and polices of other General Plan Elements reveals no inconsistencies and therefore no need to amend the General Plan. Specifically, no proposed goal, policy, or implementing program requires a modification to General Plan land use classifications, street levels of service, infrastructure policies, open space goals, or natural resource protection policies.

As housing development projects are proposed and the City or Redevelopment Agency undertakes housing activities, the goals and policies of all General Plan Elements/Chapters are examined to ensure consistency. In the event that a proposed project or housing activity is inconsistent with the General Plan, the project applicant or City Staff could initiate an amendment to the Plan to accommodate the project or activity. This process involves internal staff review, CEQA compliance, a public hearing before the Planning Commission, and a public hearing before the City Council.

## APPENDIX A

### Housing Program Implementation: What, Who, How Much, and When?

Implementation Program	Responsibility	Potential Funding	Time Frame
<b>H-1.a:</b> Residential rehabilitation program	City Staff (Planning and Community Development and Economic Development)	HOME Grant CDBG Grant	2014-2019
<b>H-1.b:</b> Expand the City's Energy Efficiency Public Benefits Fund.	City Staff (Electric Utility)	Public Benefits Fund	2015
<b>H-1.c:</b> Provide informational materials to the public regarding sustainable and green building materials.	City Staff (Planning and Community Development)	General Fund	2014-2019
<b>H-1.d:</b> Consider measures that would reserve/conserv e existing mobile home parks such as a mobile home rehabilitation program, conversion to ownership program, infrastructure improvement incentives, rent stabilization, etc.	City Staff (Planning and Community Development)	General Fund	2015-2019
<b>H-1.e:</b> Develop an At-Risk Units Program: Maintain an inventory of at-risk affordable housing units and work with property owners and non-profit affordable housing organizations to preserve these units by identifying and seeking funds from Federal, State, and local agencies to preserve the units.	City Staff (Planning and Community Development)	General Fund	2014-2019
H-1.f Work closely with the Ukiah Police Department and local apartment complex managers to keep housing safe. Consider funding mechanisms for increasing public safety.	City Staff (Planning and Community Development)	General Fund	2014-2019

H-1.g Refer all proposed General Plan amendments to the appropriate military offices for review and comment. Revise the planning permit application form to include this step of referral.	City Staff (Planning and Community Development)	General Fund	2014-2019
<b>H-2.a:</b> Provide copies of the inventory of vacant and underdeveloped land for public distribution.	City Staff (Planning and Community Development)	General Fund	2014-2019
<b>H-2.b:</b> Work with public transit providers and developers to encourage housing development located close to public transit facilities.	City Staff (Planning and Community Development and Public Works)	N/A	Ongoing
<b>H-2.c:</b> Provide reduced planning permit application fees for residential second dwelling units.	City Staff (Planning and Community Development)	N/A	2009-2014
<b>H-2.d:</b> Review the zoning code and consider eliminating constraints to condominium Developments and cooperative living projects exist, and if so, eliminate the constraints.	City Staff (Planning and Community Development)	General Fund	2016
<b>H-2.e:</b> As Staff and resources allow, assist the Ukiah Homeless Services Planning Group in all ways possible.	City Staff (Planning and Community Development, RDA, and Economic Development)	General Fund	Ongoing
<b>H-2.f:</b> The zoning code shall be amended to allow homeless facilities without the requirement for a Use Permit in the M Manufacturing zoning district. The zoning code shall require a Site Development Permit and facility management plan, and reasonable site development standards for homeless facilities, pursuant to California Government Code Section 65583.	City Staff (Planning and Community Development)	General Fund	2016

<p><b>H-2.g:</b> Do not permit the conversion of rental units to condominium units unless the City's amount of rental units is sufficiently adequate.</p>	<p>City Staff (Planning and Community Development)</p>	<p>General fund</p>	<p>Ongoing</p>
<p><b>H-2.h:</b> Do not permit the conversion of single family residential homes to professional offices unless the City's amount of residential units is sufficiently adequate.</p>	<p>City Staff (Planning and Community Development)</p>	<p>General fund</p>	<p>Ongoing</p>
<p><b>H-2.i:</b> Adopt an Inclusionary Housing Ordinance that requires below-market rate housing to be included as part of residential projects as follows:</p> <ol style="list-style-type: none"> <li>1. 20 percent of the units in a rental housing project of five or more units shall be affordable to very low and low-income households.</li> <li>2. 20 percent of the units in a for-sale project of five or more units shall be affordable to very low to moderate-income households.</li> <li>3. All housing projects involving 2 to 4 units shall pay a housing impact fee if established by the City.</li> <li>4. Alternative methods of meeting the intent</li> </ol>	<p>City Staff (Planning and Community Development)</p>	<p>General Fund</p>	<p>2017</p>

<p>of the inclusionary requirements such as the payment of an in-lieu fee deposited in the Housing Fund, or providing land for the construction of affordable units may be permitted under certain circumstances.</p> <p>5. Inclusionary units shall be constructed, rather than in-lieu fees being paid for larger housing developments. The threshold for this requirement shall be established in the Zoning Ordinance.</p> <p>6. The amount of in-lieu fees shall be established by a resolution of the City Council and bear a relationship to the difference between the sales price between market-rate versus affordable housing units.</p> <p>7. The allocation of inclusionary units among the income categories shall resemble the proportion of very-low, low, and moderate income units identified in the Regional Housing Needs Determination to the maximum feasible extent.</p>			
---	--	--	--

<p><b>H-2.j:</b> Adopt the following minimum standards for inclusionary housing units:</p> <ol style="list-style-type: none"> <li>1. the exterior appearance of inclusionary units shall not be different than for other units in the housing development of which they are a part; and</li> <li>2. Inclusionary units shall be dispersed or distributed rather than being concentrated in one portion of the development.</li> </ol>	<p>City Staff (Planning and Community Development)</p>	<p>General Fund</p>	<p>2017</p>
<p><b>H-2.k:</b> Prepare a Nexus Study to determine if a nexus can be established requiring the developers of large residential and commercial projects to construct needed affordable housing units on site or in another appropriately zoned location near the place of employment and/or pay a housing impact fee. If a nexus can be established, adopt the affordable housing requirement or housing impact fee. The Nexus Study shall include an analysis of housing impacts on public safety and the possible development of a Public Safety Impact fee for certain types of development.</p>	<p>City Staff (Planning and Community Development)</p>		<p>2017</p>
<p><b>H-2.l:</b> Identify and meet with nonprofit builders who specialize in building housing for extremely low-income</p>	<p>City Staff (Planning and Community Development)</p>	<p>General Fund</p>	<p>2015</p>

households. This effort is designed to build a long-term partnership in development, gain access to specialized funding sources, identify the range of local resources and assistance needed to facilitate the development of housing for extremely low-income households, and promote a variety of housing types, including higher density, multifamily supportive, single room occupancy and shared housing.			
<b>H-2.m:</b> Work in conjunction with other agencies to jointly develop and implement a program that is designed to address the needs of the extremely low income households in the City. At least annually and on an on-going basis contact agencies and developers to facilitate implementing the program. Actions to be considered for inclusion in the program include prioritizing City/RDA funding, supporting grant and other applications for funding, and exploring housing types and construction methods to promote housing for ELI citizens.	City Staff (Planning and Community Development)	General Fund	2015
<b>H-2.n:</b> Amend the zoning ordinance to be consistent with Senate Bill 2. All transitional and supportive housing shall be considered a residential use and only those restrictions that apply to other residential uses of the same type (single family residential, duplex, multi-family, etc.) shall be imposed.	City Staff (Planning and Community Development)	General Fund	2015
<b>H-2.o:</b> Post the sites inventory map and information on the City's website and prepare hard-copy informational handout material for property owners and developers.	City Staff (Planning and Community Development)	General Fund	2014

<p><b>H-2.p:</b> Within 1-year of adoption of the Housing Element, conduct a roundtable meeting with non-profit housing sponsors and developers to educate and share information about vacant and underutilized sites, the planned development tool, the lot consolidation process, and incentives offered by the City.</p>	<p>City Staff (Planning and Community Development)</p>	<p>General Fund</p>	<p>Immediate and ongoing</p>
<p><b>H-2.q:</b> To ensure adequate sites are available throughout the planning period to meet the City's RHNA, the City will continue to annually update an inventory that details the amount, type, and size of vacant and underutilized parcels to assist developers in identifying land suitable for residential development and that also details the number of extremely low-, very low-, low-, and moderate-income units constructed annually. If the inventory indicates a shortage of available sites, the City shall rezone sufficient sites to accommodate the City's RHNA.</p> <p>The City has identified residential capacity within the mixed use zone to accommodate 284 units of the City's RHNA for lower-income households. To ensure sufficient residential capacity is maintained within this zone to accommodate the identified need of 284 units, the City will develop and implement a formal</p>	<p>City Staff (Department of Public Works)</p>	<p>General Fund</p>	<p>2014 and ongoing</p>

<p>ongoing (project-by-project) evaluation procedure pursuant to Government Code Section 56863. Should an approval of commercial development result in a reduction of capacity within mixed use zones below the residential capacity needed to accommodate the remaining need for lower-income households, the City will identify and zone sufficient sites to accommodate the shortfall on land zones exclusively for residential multifamily use allowing at least 16 du/acre.</p>			
<p><b>H-2.r:</b> Facilitate the consolidation of smaller, multi-family parcels by 1) publicizing the underutilized sites inventory on the City's website, and 2) providing technical assistance to property owners and developers in support of lot consolidation. To encourage development of quality housing at prices lower income households can afford on smaller, multi-family parcels, the City will meet with non-profit sponsors and developers to promote strategies and the creation of lot consolidation incentives.</p>	<p>City Staff (Planning and Community Development, RDA, and Economic Development)</p>	<p>General Fund</p>	<p>Ongoing</p>
<p><del><b>H-2.s:</b> Identify a prime affordable housing infill site currently burdened by flood zone issues and pursue an engineering study and possible FEMA map correction to eliminate this constraint.</del></p>	<p><del>City Staff (Planning and Community Development, RDA, and Economic Development)</del></p>	<p><del>General Fund</del></p>	<p><del>2012</del></p>

<b>H-3.a:</b> Special Needs Rental Housing: Support applications to State and federal agencies such as HCD, State Treasurer's Office, HUD and USDA for affordable rental housing financing to provide shelter for very low-income families and special needs households.	City Staff (Planning and Community Development, RDA, and Economic Development)	General Fund	Ongoing
<b>H-3.b:</b> Increase housing opportunities for persons with disabilities consistent with the fair housing and disability laws, and encourage physical access to and within residential units and areas during the development review process.	City Staff (Planning and Community Development, RDA, and Economic Development)		Ongoing
<b>H-3.c:</b> Review the zoning code and determine if any regulatory constraints to special needs housing projects exist, and if so, eliminate them.	City Staff (Planning and Community Development)	General Fund	2015-2016
<b>H-3.d:</b> Continue to support and assist farm worker housing advocates by providing technical assistance with development applications; lower planning application fees for affordable housing projects, and identifying potential sites for farm worker housing.	City Staff (Planning and Community Development)	General Fund	Ongoing
<b>H-3.e:</b> Amend the zoning code to define and allow Single Room Occupancy (SRO) developments in the Medium Density (R-2) and High Density (R-3) zoning districts.	City Staff (Planning and Community Development)	General Fund	2016
<b>H-4.a:</b> During fiscal year 2014-2015 prepare non-discrimination in housing public information	City Staff (Planning and Community Development)	General Fund	2014-2015

<b>H-4.b:</b> Distribute housing discrimination public information and make it available at the Ukiah Civic Center and on the City's website.	City Staff (Planning and Community Development, RDA, and Economic Development)	General Fund	2014-2015
<b>H-5.a:</b> Apply the CEQA Infill Exemption and perform expedited review for well designed, compact projects using green and sustainable design and building techniques.	City Staff (Planning and Community Development)	N/A	Ongoing
<del><b>H-5.b:</b> Prepare and present a downtown core small lot subdivision ordinance or similar tool for consideration.</del>	<del>City Staff (Planning and Community Development and Public Works)</del>	<del>General Fund</del>	<del>2011-2012</del>
<b>H-5.c:</b> Prepare and present a green building/sustainable development incentive tool(s) for consideration that could include density bonuses and relief from parking and other zoning requirements.	City Staff (Planning and Community Development)	General Fund	2015-2016
<b>H-5.d:</b> Green Building Codes: Consider Amending the building and zoning codes to identify and remove constraints to green-building, resource conservation, and alternative energy generation and establish green building and sustainable practice requirements for new developments, remodels and retrofits. Topics to be included are: Green building materials and practices, Passive solar design and siting, Energy efficient heating and cooling technology, Alternative water storage,	City Staff (Planning and Community Development)	General Fund	2015-2016

wastewater treatment and reclamation, and storm-water management systems.			
<b>H-5.e:</b> Continue to administer the solar and energy efficiency rebate programs.	City Staff (Public utilities)	Utilities Public Benefit Fund	Ongoing
<b>H-5.f:</b> Assist developers and housing development agencies in incorporating green building, energy conservation, and alternative energy generation into their projects by providing information about resources and links to local organizations such as local renewable energy system designers and installers, rebates, energy-rating systems, and funding, on the Housing Resources website.	City Staff (Planning and Community Development)	General Fund	2014-2019 and Ongoing
<b>H-5.g:</b> Promote energy and water conservation education programs that address steps to energy and water efficiency, benefits of weatherization and weatherization assistance programs, and information of onsite renewable energy generation technologies.	City Staff (Public utilities, Public Works, Planning, Building)	Public Utilities	2014-2019 and Ongoing
<b>H-5.h:</b> Promote stormwater management systems for mutli-family housing developments that have multiple benefits such as bio-swales to reduce downstream flooding, contamination of streams and rivers, fire hazard, and irrigation needs and to distribute stormwater and recharge groundwater.	City Staff (Public Works, Planning, Building)		2014-2019 and Ongoing

<b>H-5.i:</b> Reduce electricity and natural gas demands by promoting the use of renewable energy technologies in residential and mixed-use projects. Strongly promote solar energy generation, use of solar water heaters, and passive solar design in new housing and, especially, multi-family housing both prior to and during project review.	City Staff (Public utilities, Economic Development, RDA and Planning, Building)	Public Utilities	Ongoing
<b>H-5.j:</b> Work with developers to create residential neighborhoods with mixed housing densities, types, and housing affordability levels that promote human interaction, neighborhood-scale services and facilities, and connectivity to schools, neighborhoods, and commerce.	City Staff (Planning, RDA, Economic Development)	General Fund	Ongoing
<b>H-6.k:</b> Prepare written and electronic public information about what the City is doing to promote and create affordable housing, and invite public participation and suggestions.	City Staff (Planning and Community Development and Economic Development)	General Fund	2012015
<b>H-6.l:</b> Conduct periodic meetings with developers, and non-profit housing development agencies, the Ukiah Police Department and others to identify constraints to development of affordable housing and use the information gained to consider zoning code amendments.	City Staff (Planning, Building)	General Fund	Ongoing
<b>H-6.J No Net Loss</b> The City will monitor project approvals and comply with the <i>no net loss</i>	City Staff (Planning, Building)	General Fund	Ensure compliance with <i>no net loss</i> requirements throughout the planning period

requirements of <i>Government Code</i> §65863. No zoning amendment or project approval shall reduce the residential density or allow development of any parcel at a lower residential density than assumed in the Housing Element land inventory unless the City makes written findings in accordance with §65863(b).

<b>Total</b>						<b>50.786</b>	<b>346</b>	

	2004	2009	2014
<b>Total Vacant/Underutilized Potential Units</b>	1129	904	879
<b>Total Potential Hillside Units</b>	66	63	63
<b>Total Redevelopable Site</b>	N/A	114	114

<b>Units</b>			
<b>Total Potential Units</b>	1195	1081	1056
<b>Total Probable Units</b>	733	659	634

1. The probable number of units takes into consideration property ownership, known long range plans of the property owner, location, market forces, and other constraints to development.
2. The traffic and access constraints are subjective and based on empirical observations and knowledge of the area surrounding each parcel. The potential number of units takes these observations into account and reflects a best guess or estimate of total probable units.
3. The drainage, creek, and flood zone constraints are listed because the sites are either located adjacent to or in close proximity to a creek or they are located in a 100-500 year flood area as mapped by FEMA. The potential number of units takes these observations into account and reflects a best guess or estimate of total probable units.
4. The Infill constraint merely recognizes that the sites are identified infill parcels that typically experience infill "issues" when proposed for development or redevelopment. These issues include neighborhood compatibility, noise, congestion, etc. Each site was evaluated independently with these "issues" in mind and the probable number of units were estimated accordingly.
5. The Airport B1 Zone limits the number of people on a site at any given time, and precludes multi-family residential development if the density standard cannot be met and other alternatives sites exist. The B2 Airport Compatibility Zone (Infill) allows a higher density than the B1, so that typical multi-family residential development (28 units per acre) can be achieved.
6. The same percentage reduction factor (36%) used in 2004 to arrive at the "Probable" units was used in 2009.
7. The 2009 land survey utilized GIS technology and more detailed field work than the 2004 land survey. As a result, additional vacant and underutilized parcels were discovered, and exact acreages were determined. In most cases, the size of the 2004 parcels were reduced somewhat with the more exact GIS technology for determining their sizes.
8. In regard to the Underutilized Land, Staff made assumptions regarding potential additional units based on such factors as where existing buildings were located on the parcels, the presence of mature trees, creeks and other natural "constraints", etc.
9. As indicated 3 of the 4 Northwest Pacific Railroad parcels are vacant. They are included in the list of underutilized parcels because they represent a prime lot consolidation opportunity with the 1 partially developed parcel.
10. The Orchard Village/Manor parcels are listed as underutilized because the development on these parcels includes large expansive lawn/turf areas that could be utilized for additional affordable housing units.
11. The residential development potential in the C-1 and C-2 zones is high. The maximum density allowed is 28 units per acre. Recently constructed housing developments in commercial zoning districts (non-mixed use) include a 6 unit apartment complex on North Main Street and a 12 unit apartment complex on South Main Street.
12. The maximum density allowed in the high density and commercial zoning districts is 28 units per acre.
13. There is a need for 234 extremely low, very low, and low income units. There is opportunity for 280 units on residentially zoned land (vacant, underutilized and redevelopable parcels).
14. It should be noted that as of March, 2011, the railroad depot site owned by the North Coast Railroad Authority was being considered by the State of California for the new Courthouse location.

## APPENDIX C

### Review of 2009-2014 Housing Element

#### Implementation Accomplishments

The City of Ukiah is committed to continually improving programs in the Housing Element to ensure that the housing needs of the community are met. Reviewing past accomplishments is an important step in developing housing strategies that are effective and address identified community needs. State law requires the City to report on progress made in meeting the goals, policies, and objectives set forth in the prior Housing Element. This includes reviewing progress made in implementing programs included in the adopted element, and evaluating their effectiveness and continued appropriateness for the City.

The last Housing Element was adopted in 2011 and covered the RHNA period from 2009 to 2014. Even with the loss of the Redevelopment Agency and a lack of staff and financial resources, moderate to good progress was made implementing the 2009-2014 tasks.

Program	Objective	Timeframe in Housing Element	Progress/Appropriateness
<p><b>H-1.a:</b> By the end of 2010, develop and implement A residential rehabilitation Program with an emphasis on Improving safety, comfort and Energy Efficiency.</p>	<p>Rehabilitate residential units</p>	<p>2010</p>	<p><b>Progress:</b> CDBG funds secured for rehab projects. Mendocino County Community Development Commission managed program for the City. Two rehab projects completed. Additional funds being sought.</p> <p><b>Appropriateness:</b> In theory, this program has a big bang for the buck, but the qualification requirements were challenging for many residents. Looking for additional funds with less stringent qualification requirements.</p>
<p><b>H-1.b:</b> Work with the City Public Utility Department to potentially expand the City's Energy Efficiency Public Benefits Fund.</p>	<p>Energy Efficiency Improvements</p>	<p>Ongoing</p>	<p><b>Progress:</b> Discussion in 2011. GHG Inventory and Climate Action Plan underway in 2012 -2013 – Expansion of the City's Energy Efficiency Public Benefits Fund may become a program in CAP.</p> <p><b>Appropriateness:</b> This</p>

			program is still appropriate and may be fulfilled with the adoption of the City Climate Action Plan – slated for 2014.
<b>H-1.c:</b> Provide informational materials to the public regarding sustainable and green building materials.	Education	Ongoing	<b>Progress:</b> Completed. Green Building Resource Center created in the Ukiah Civic Center. <b>Appropriateness:</b> This program provides valuable information to residents, contractors, architects, etc.
<b>H-1.d:</b> Consider measures That would preserve/conserv e existing mobile home parks, such as a mobile home rehabilitation program, conversion to ownership program, infrastructure improvement incentives, rent stabilization, etc.	Preservation of Mobile Home Parks	Ongoing	<b>Progress:</b> Completed. Rent stabilization ordinance adopted in 2011. <b>Appropriateness:</b> While a major part of this program was completed, it remains appropriate and is included in the updated element.
<b>H-1.e</b> Develop an At-Risk Units Program: Maintain an Inventory of at-risk affordable housing units and work with property owners and non-profit affordable housing organizations to preserve these units by identifying and seeking funds from Federal, State, and local agencies to preserve the units.	Maintain stock of affordable housing.	Ongoing	<b>Progress:</b> Inventory completed in 2011. <b>Appropriateness:</b> While a major part of this program was completed, it remains appropriate and is included in the updated element.
<b>H-2.a:</b> Provide copies of the inventory of vacant and underdeveloped land for public distribution.	Education	Ongoing	<b>Progress:</b> Completed in 2011. <b>Appropriateness:</b> The program is appropriate and on-going, and remains in the updated element.
<b>H-2.b:</b> Work with public transit providers and developers to encourage housing development located close to public transit facilities.	Education	Ongoing	<b>Progress:</b> Development project referral to the Mendocino Transit Authority routine procedure. <b>Appropriateness:</b> The program is appropriate and on-going, and remains in the updated element.

<b>H-2.c:</b> Provide reduced planning permit application fees for residential second dwelling units.	Encourage and increase second dwelling units	Ongoing	<b>Progress:</b> Reduced fees adopted if units are affordable.  <b>Appropriateness:</b> Completed and no longer included in the updated element.
<b>H-2.d:</b> Review the zoning code and determine if any constraints to condominium developments and cooperative living projects exist, and if so, eliminate the constraints.	Encourage condo and cooperative living projects.	Ongoing	<b>Progress:</b> Preliminary review completed in 2011.  <b>Appropriateness:</b> This program has not been completed and is still appropriate. It remains in the updated element.
<b>H-2.e:</b> As Staff and resources allow, assist the Staff of the Buddy Eller Homeless Shelter facility to resolve any neighborhood compatibility issues that arise.	Eliminate incompatibility	Ongoing	<b>Progress:</b> No complaints received. Ongoing discussions and monitoring.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-2.f:</b> The zoning code shall be amended to allow homeless facilities without the requirement for a Use Permit in the M Manufacturing zoning district. The zoning code shall require a Site Development Permit and facility management plan, and reasonable site development standards for homeless facilities, pursuant to California Government Code Section 65583.	Increase homeless shelters	Ongoing	<b>Progress:</b> Low priority because no capacity issues at the existing shelter.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-2.g:</b> Do not permit the conversion of rental units to condominium units unless the City's amount of rental units is sufficiently adequate.	Retain rental housing stock	Ongoing	<b>Progress:</b> No conversions proposed in 2011-2013.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-2.h:</b> Do not permit the conversion of single family	Retain housing stock	Ongoing	<b>Progress:</b> No conversions proposed in 2011-2013.

residential homes to professional offices unless the City's amount of residential units is sufficiently adequate.			<b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-2.i:</b> Adopt an Inclusionary Housing Ordinance by 2013 that requires below-market rate housing to be included as part of residential projects	Increase affordable housing	Ongoing	<b>Progress:</b> Preliminary work completed. Minimal housing starts in the City. Inclusionary housing ordinance low priority.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-2.j:</b> Adopt the following minimum standards for inclusionary housing units:  3. The exterior appearance of inclusionary units shall not be different than for other units in the housing development of which they are a part; and  • 4. Inclusionary units shall be dispersed or distributed throughout the development rather than being concentrated in one portion of the development.	Increase affordable housing	Ongoing	<b>Progress:</b> Preliminary work completed. Minimal housing starts in the City. Inclusionary housing ordinance low priority.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-2.k:</b> Prepare a Nexus Study by 2014 to determine if a nexus can be established requiring the developers of large residential and commercial projects to construct needed affordable housing units on site or in another appropriately zoned location near the place of employment and/or pay a housing impact fee. If a nexus can be established, adopt the affordable housing requirement or housing impact fee.	Generate affordable housing funds	Ongoing	<b>Progress:</b> No work completed. Reduced staff and a lack of funds to prepare Study.  Loss of Ukiah RDA stalled effort.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-2.l:</b> Identify and meet with nonprofit builders who	Develop partnerships with affordable housing	Ongoing	<b>Progress:</b> Met and worked closely with an out-of-town

<p>specialize in building housing for extremely low-income households. This effort is designed to build a long-term partnership in development, gain access to specialized funding sources, identify the range of local resources and assistance needed to facilitate the development of housing for extremely low-income households, and promote a variety of housing types, including higher density, multifamily supportive, single room occupancy and shared housing.</p>	<p>developers.</p>		<p>affordable housing developer about the old Trinity School site.</p> <p>Effort stalled due to the elimination of the Ukiah RDA.</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.</p>
<p><b>H-2.m:</b> Work in conjunction with other agencies to jointly develop and implement a program that is designed to address the needs of the extremely low income households in the City. At least annually and on an on-going basis contact agencies and developers to facilitate implementing the program. Actions to be considered for inclusion in the program include prioritizing City/RDA funding, supporting grant and other applications for funding, and exploring housing types and construction methods to promote housing for ELI citizens.</p>	<p>Create more affordable housing</p>	<p>Ongoing</p>	<p><b>Progress:</b> Some progress made. Loss of staff and the elimination of the Ukiah RDA has stalled efforts.</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.</p>
<p><b>H-2.n:</b> Amend the zoning ordinance to be consistent with Senate Bill 2. All transitional and supportive housing shall be considered a residential use and only those restrictions that apply to other residential uses of the same type (single family residential, duplex, multi-family, etc.) shall be imposed.</p>	<p>Streamline transitional housing projects.</p>	<p>Ongoing</p>	<p><b>Progress:</b> Preliminary work completed in 2011.</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.</p>
<p><b>H-2.o:</b> Post the sites inventory map and housing development in commercial zones information on the City's website and prepare hard-copy informational</p>	<p>Education</p>	<p>Ongoing</p>	<p><b>Progress:</b> Completed in 2011</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the</p>

handout material for property owners and developers.			updated element.
<p><b>H-2.p:</b> Within 1-year of adoption of the Housing Element, conduct a roundtable meeting with non-profit housing sponsors and developers to educate and share information about vacant and underutilized sites, the planned development tool, the lot consolidation process, and incentives offered by the City.</p>	Create more affordable housing	Ongoing	<p><b>Progress:</b> Loss of staff and the elimination of the Ukiah RDA have stalled efforts.</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.</p>
<p><b>H-2.q:</b> To ensure adequate sites are available throughout the planning period to meet the City's RHNA, the City will continue to annually update an inventory that details the amount, type, and size of vacant and underutilized parcels to assist developers in identifying land suitable for residential development and that also details the number of extremely low-, very low-, low-, and moderate-income units constructed annually. If the inventory indicates a shortage of available sites, the City shall rezone sufficient sites to accommodate the City's RHNA.</p> <p>The City has identified residential capacity within the mixed use zone to accommodate 284 units of the City's RHNA for lower-income households. To ensure sufficient residential capacity is maintained within this zone to accommodate the identified need of 284 units, the City will develop and implement a formal ongoing (project-by-project) evaluation procedure pursuant to Government Code Section 56863. Should an approval of commercial development result in a reduction of capacity within mixed use zones below the residential capacity needed to accommodate the remaining need for lower-income households, the City will identify and zone sufficient</p>	Education	Ongoing	<p><b>Progress:</b> Completed. Inventory updated in 2014</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.</p>

sites to accommodate the shortfall on land zones exclusively for residential multifamily use allowing at least 16 du/acre.			
<b>H-2.r:</b> Facilitate the consolidation of smaller, multi-family parcels by 1) publicizing the underutilized sites inventory on the City’s website, and 2) providing technical assistance to property owners and developers in support of lot consolidation. To encourage development of quality housing at prices lower income households can afford on smaller, multi-family parcels, the City will meet with non-profit sponsors and developers to promote strategies and the creation of lot consolidation incentives.	Create more affordable housing	Ongoing	<b>Progress:</b> Initial steps completed in 2012.  Ongoing efforts slowed by reduced staff and the elimination of the Ukiah RDA.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-2.s:</b> Identify a prime affordable housing infill site currently burdened by flood zone issues and pursue an engineering study and possible FEMA map correction to eliminate this constraint.	Increase potential affordable housing sites	Ongoing	<b>Progress:</b> Completed in 2011. (“Garden Café” site – South State Street).  <b>Appropriateness:</b> Completed and therefore not included in updated element.
<b>H-3.a:</b> Special Needs Rental Housing: Support applications to State and federal agencies such as HCD, State Treasurer’s Office, HUD and USDA for affordable rental housing financing to provide shelter for very low-income families and special needs households.	Increase very low and special needs housing units	Ongoing	<b>Progress:</b> Reduced staff and the elimination of the Ukiah RDA have stalled implementation.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-3.b:</b> Increase housing opportunities for persons with disabilities consistent with the fair housing and disability laws, and encourage physical access to and within residential units and areas during the development review process.	Increase housing opportunities for persons with disabilities	Ongoing	<b>Progress:</b> Routine procedure with the review of development projects.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-3.c:</b> Review the zoning code and consider eliminating regulatory constraints to special needs housing projects.	Eliminate constraints	Ongoing	<b>Progress:</b> Preliminary work competed in 2011.  <b>Appropriateness:</b> This

			program is on-going and still appropriate. It remains in the updated element.
<b>H-3.d:</b> Continue to support and assist farmworker housing advocates by providing technical assistance with development applications; lower planning application fees for affordable housing projects, and identifying potential sites for farm worker housing.	Increase farmworker housing	Ongoing	<b>Progress:</b> Lower fees adopted.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-3.e:</b> Amend the zoning code to define and allow Single Room Occupancy (SRO) developments in the Medium Density (R-2) and High Density (R-3) zoning districts.	Increase tools to encourage affordable housing.	Ongoing	<b>Progress:</b> Downtown Zoning Code adopted in 2012 – includes opportunities for SRO development.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-4.a:</b> Continue to refer housing discrimination complaints to Legal Services of Northern California, State Fair Employment and Housing Commission, and the U.S. Department of Housing and Urban Development (HUD).	Education	Ongoing	<b>Progress:</b> No complaints received.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-4.b:</b> Distribute housing discrimination public information and make it available at the Ukiah Civic Center and on the City's website.	Education	Ongoing	<b>Progress:</b> Completed.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-5.a:</b> Apply the CEQA Infill Exemption when possible and perform expedited review for well designed, compact projects using green and sustainable design and building techniques.	Education	Ongoing	<b>Progress:</b> Implemented with Planning Commission approval in 2012 of the Richard Ruff project on North State Street.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.

<p><b>H-5.b:</b> Prepare and present a downtown core small lot subdivision ordinance or similar tool for consideration.</p>	<p>Education</p>	<p>Ongoing</p>	<p><b>Progress:</b> Completed with adoption of the Downtown Zoning Code in 2012.</p> <p><b>Appropriateness:</b> Completed and not included in updated element.</p>
<p><b>H-5.c:</b> Prepare and present a green building/sustainable development incentive tool(s) for consideration that could include expedited permit processing, density bonuses and relief from parking and other zoning requirements.</p>	<p>Education</p>	<p>Ongoing</p>	<p><b>Progress:</b> Project programmed for 2013.</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.</p>
<p><b>H-5.d:</b> Green Building Codes: Consider Amending the building and zoning codes to identify and remove constraints to green-building, resource conservation, and alternative energy generation and establish green building and sustainable practice requirements for new developments, remodels and retrofits. Topics to be included are: Green building materials and practices, Passive solar design and siting, Energy efficient heating and cooling technology, Alternative water storage, wastewater treatment and reclamation, and storm-water management systems.</p>	<p>Education</p>	<p>Ongoing</p>	<p><b>Progress:</b> Project programmed for 2013</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.</p>
<p><b>H-5.e:</b> Continue to administer the solar and energy efficiency rebate programs.</p>	<p>Education</p>	<p>Ongoing</p>	<p><b>Progress:</b> The program continues and is under evaluation for possible expansion.</p> <p><b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.</p>
<p><b>H-5.f:</b> Assist developers and housing development agencies in incorporating green building, energy</p>	<p>Education</p>	<p>Ongoing</p>	<p><b>Progress:</b> Green Building Information Center completed in the Ukiah Civic Center.</p>

conservation, and alternative energy generation into their projects by providing information about resources and links to local organizations such as local renewable energy system designers and installers, rebates, energy-rating systems, and funding, on the Housing Resources website.			<b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-5.g:</b> Promote energy and water conservation education programs that address steps to energy and water efficiency, benefits of weatherization and weatherization assistance programs, and information of onsite renewable energy generation technologies and financing options.	Education	Ongoing	<b>Progress:</b> Green Building Information Center completed in the Ukiah Civic center.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-5.h:</b> Promote stormwater management systems for mutli-family housing developments that have multiple benefits such as bio-swales to reduce downstream flooding, contamination of streams and rivers, fire hazard, and irrigation needs and to distribute stormwater and recharge groundwater.	Education	Ongoing	<b>Progress:</b> Routine practice of Public Works Staff.  New storm-water ordinance adopted in 2010.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-5.i:</b> Reduce electricity and natural gas demands by promoting the use of renewable energy technologies in residential and mixed-use projects. Strongly promote solar energy generation, use of solar water heaters, and passive solar design in new housing and, especially, multi-family housing both prior to and during project review.	Education	Ongoing	<b>Progress:</b> Routine practice during project review.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-5.j:</b> Work with developers to create residential neighborhoods with mixed housing densities, types, and housing affordability levels that promote human interaction, neighborhood-scale services and facilities, safety, and connectivity to schools, neighborhoods, and	Education	Ongoing	<b>Progress:</b> No opportunities have surfaced.  Poised to implement.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.

commerce.			
<b>H-5.k:</b> Adopt a form based zoning code for the downtown that would promote and provide opportunity for compact, pedestrian friendly, infill mixed use development including a variety of housing types.	Education	Ongoing	<b>Progress:</b> Downtown form-based code adopted in 2012.  <b>Appropriateness:</b> Completed and not included in the updated element.
<b>H-6.a:</b> Redesign and reinvigorate the RDA low and moderate income housing program.	Increase affordable housing	Ongoing	<b>Progress:</b> RDA eliminated by the State of California.  <b>Appropriateness:</b> RDA eliminated and this program is not included in the updated element.
<b>H-6.b:</b> Develop a Housing Resources webpage that may be used to facilitate the development and improvement of affordable housing. Included on the webpage could be items such as funding resources, affordable housing development agencies and developers, energy conservation and green-building resources and services.	Education	Ongoing	<b>Progress:</b> New City website under construction 2012-2014.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.
<b>H-6.c:</b> Conduct periodic meetings with developers and non-profit housing development agencies to identify constraints to development of affordable housing and use the information gained to consider zoning code amendments.	Education	Ongoing	<b>Progress:</b> Reduced staff and the elimination of the Ukiah RDA have stalled efforts.  <b>Appropriateness:</b> This program is on-going and still appropriate. It remains in the updated element.

## APPENDIX D

### Zoning Matrix

CITY OF UKIAH  
 Department of Planning & Community Development, 300 Seminary Avenue, Ukiah, CA 95482  
 planning@cityofukiah.com (707) 463-6200 www.cityofukiah.com

#### BASE ZONING DISTRICTS – LAND USE MATRIX

This matrix provides a generalized reference for identifying uses by zoning district. The matrix is not adopted and does not amend or substitute for regulations adopted by the City. Consult the Ukiah Municipal Code (Division 9, Chapter 2, Zoning) for definitions, regulations, standards and exceptions. Other regulations may apply. Some base and combining zoning districts are not shown. The Ukiah Municipal Code is online at: <http://66.113.195.234/CA/Ukiah/index.htm>
